Title - *Special lecture on National Science Day-2018: Celebration: Theme ; “Science & Technology for Sustainable Future”*

Date - 28-02-2018

A Report on
Celebration of National Science Day- 2018
Theme: "*Science & Technology for Sustainable Future*"

Organised by

*The Chemistry Department and the Science Departments under the DBT- Star College Scheme,
Synod College, Shillong,*

Sponsored by

The Department of Biotechnology, Ministry of Science and Technology, Government of India

Venue: Hall 301

Date: 28th February, 2018

Time: 10.00 AM

National Science Day 2018 is celebrated on 28th February, 2018 at Hall 301 in Synod College Shillong, with this year Theme "Science and Technology for Sustainable Future" this event is organised by the Department of Chemistry and the Science Departments under the DBT Star College Scheme, Synod College Shillong. A total of 165 B.Sc Students of the college and the faculty members of the Science Departments attended the programme. The programme was chaired by Dr. M.Rani Coordinator of IQAC, Synod College. Dr. D. Wanswett, Principal of Synod College delivered a welcome address for the teachers and students of Synod College who joined the celebration and motivated the students and faculty members attended with his speech on the life and times of Dr C.V. Raman. The Resource Person for this event was Dr W. Kharmawphlang, Associate Professor, Chemistry Department. She delivered the address on the enormous contribution of science in diverse fields of life like medicine, health, agriculture, communication etc for the betterment of mankind and also for popularizing science in all its forms in the society. She also spread the message on the importance of science and its applications amongst the people, especially college students in accelerating the pace of development in the country for sustainable future. The Department of Chemistry also conducted a poster presentation on the above theme where the honours students of the department of B. Sc I, III and V semester participated in this programme. The poster presentation by the students highlighted the uses of different technology for obtaining power energy which is renewable sources of energy like hydro power, Wind energy, Solar energy, Bio-fuel energy, Solid waste management, Preservation of Water resources etc, which leads to future sustainability. The

programme was closed with a vote of thanks proposed by Shri. N. Kharbani who thank the Principal of Synod College for delivering the welcome address, the chairman of the programme, teachers and students who participated in the programme, the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event.

Title - *International Seminar on “Human Development in South Asia: Issues and Challenges”*

Date - 16-03-2018 to - 17-03-2018

Report of the International Inter-disciplinary Seminar

on

“Human Resource Development in South-Asia: Capabilities, Challenges and Prospects”

The Department of Economics and Political Science (UG) in collaboration with IQAC, Synod College organised a two-day International Inter-disciplinary seminar on “Human Resource Development in South-Asia: Capabilities, Challenges, and Prospects on the 16th and 17th of March 2018 on the conference room and auditorium of the college. The seminar is conducted offline, and registration was done in the college. The inaugural function of the seminar was held in the auditorium of the college where the inaugural address was given by the Chief Guest Shri Conrad K. Sangma and the keynote address by Prof Lok Raj Baral, Former Ambassador to India, Nepal. The detailed programme for the two-day international seminar is as follows:

Day 1: 16th March 2018

8.45 A.M to 9.45 AM

Inaugural Function

8.45 A.M	Welcome Address Chairperson: The Principal, Prof. C. Pariat
8.50 A.M	Presentation of bouquets
8.52 A.M	Introduction of the seminar, Dr. Ibalari P. Khongjoh, Convener
9.00 A.M	Introduction of SASSRN, Dr. Vinod Kumar Bhardwaj, SASSRN Convener
9.05A.M	Key Note Address, Prof Lok Raj Baral, Former Ambassador to India, Nepal
9.25 A.M	Inaugural Address, the Chief Guest Shri Conrad K. Sangma Honourable Chief Minister, Meghalaya
9.40 A.M	Vote of thanks Dr. Merostar Rani, Coordinator, IQAC

9.45 A.M to 10.30 A.M

Light Refreshment

10.30 A.M to 11.30 A.M

Technical session I

Human Resource Development: Strategies and Challenges

Chairperson: Dr. Ganesh Datta Bhatta, Faculty of Law, Tribhuvan University,
Kathmandu, Nepal

Time	Name of the Speaker	Name of the paper
10.30 AM	Kedar P. Acharya (Plenary Speaker)	Human Resource Development in the Twenty First Century: Challenges and Strategies
10.50 AM	Biswajit Maitra (Plenary Speaker)	Investment in Human Capital, Life Expectancy and Endogenous Growth in Bangladesh
11.10 AM	Discussion	

11.30 A.M to 1.30 P.M

Technical Session II

Human Resource Development and Education

Chairperson: Prof. Lok Raj Baral, Former Ambassador to India, Kathmandu, Nepal

Time	Name of the Speaker	Name of the paper
11.30 A.M	Binaya Kushiya (Plenary Speaker)	Quality Initiative in Education for Human Resource Development in Nepal
11.50 A.M	Ganesh Datta Bhatta (Plenary Speaker)	Human Resource Development in Nepal: Initiatives and Issues
12.10 P.M	Shruti Tandon (Plenary Speaker)	Higher education in the age of globalization with special reference to India
12.30 P.M.	Rakhee Shukla (Plenary Speaker)	Emerging Concerns in Education with Special Reference to India
12.50 P.M	Discussion	

1.30 P.M to 2.30 P.M

Lunch

2.30 P.M to 5.00 P.M

Technical Session III

SAARC, Regional Cooperation and Human Resource Development

Chairperson: Dr. Kedar P. Acharya, Chairperson, University Grants Commission,
Kathmandu, Nepal

Time	Name of the Speaker	Name of the paper
2.30 P.M	Mohammad Iqbal (Plenary Speaker)	Issues and Conflicts in South Asia: Looking ahead for better tomorrow
2.50 P.M	K.N. Tennyson (Plenary Speaker)	Regional Cooperation: Prospects for Peace and Human Resource Development in South Asia
3.10 P.M	Sunita Pachori (Plenary Speaker)	Conflicts in South Asia- Challenges to SAARC Regionalism (A case study of India)
3.30 P.M	Monika Kannan (Plenary Speaker)	The China-Pakistan Economic Corridor: Silk Road or the Dragon's Game Changer
3.50 P.M	Afsara Shaheen	Ethnic Reconciliation in Srilanka: Prospects and Challenges
4.15 P.M	Emdor Thangkhiew	A Comparative study of human resources in European Union and South Asia Association for Regional Cooperation with special emphasis on India and Germany
4.30 P.M	Discussion	

Day 2: The 17th March, 2018

9.00 A.M -11.00 A.M

Technical Session IV

Challenges and Opportunities towards Human Security and Development: Trafficking and Migration

Chairperson: Prof K. Nongrum, Associate Professor and HOD, Geography, Synod College.

Time	Name of the Speaker	Name of the paper
9.00 A.M	Vinod Kumar Bhardwaj (Plenary Speaker)	Women Trafficking from Nepal to India: Tricks, Tracks and Treatment
9.20 A.M	Susmita Sen Gupta (Plenary Speaker)	Intra-Regional Migration of Chakmas: Exploring the Problems and the Prospects
9.40 A.M	Hasina Kharbhih (Plenary Speaker)	Human Trafficking in North East India: Experiences
10.00 A.M	Ajay Chhetri (Plenary Speaker)	Intra-Regional migration: pros and cons with Special to Sikkim Himalayas as a Regional hotspot of Immigration

10.20 A.M	Discussion
-----------	------------

11.00 A.M – 12.10 P.M

Technical Session V

Education and Human Resource Development in Northeast India

Chairperson: Dr. I. Lapang, Associate Professor and HOD, Geography, Synod College

Time	Name of the Speaker	Name of the paper
11.00 A.M	Veronica Pala (Plenary Speaker)	Employment and Education in North East India: Exploring the Great Divide
11.20 A.M	Batskhem Myrboh (Plenary Speaker)	Public Policy towards Private Investment in Higher Education in North East India
11.35 A.M	B. Komow	Bridging the Educational Relations between North East India and Beyond
11.50 A.M	Discussion	

12.10 P.M to 1.30 P.M

Technical session VI

Human Resource Development and Education

Chairperson: Dr. Veronica Pala, Assistant Professor, Department of Economics, NEHU

12.10 P.M.	Azad Ahmad Khan and Tarun Mathur	State of Education in Pakistan: Challenges and Possibilities
12.25 P.M.	Shiraz Sheikh	The Corroding Edifice of Higher Education in India: The Process and Consequences of Institutional and Ideological Assaults
12.40 P.M	Ayan Rudra	Role of Education and Economy on Disaster Preparedness in Sundarban: A comparison of West Bengal and Bangladesh Delta Area
12.55 P.M	Discussion	

1.30 P.M – 2.30 P.M

Lunch

2.30 P.M to 3.30 P.M

Technical Session VII

Capacity Building and Women

Chairperson: Dr. Monika Kannan, Assistant Professor, HOD, Geography, Sophia Girls' (Autonomous) College, Ajmer

Time	Name of the Speaker	Name of the paper
2.30 P.M	Kittu R.S.	Women Empowerment through financial Inclusion: A Study of Bandhan Financial Services Limited
2.45 P.M	Dipti Tamang	Women and Development in South Asia: Socio-cultural impediments to ensuring women's participation in development goals and programmes
3.00 P.M	Tulika Chakravorty	Understanding Capability Deprivation and Capacity Building of Women in Fishing Communities in Sunderbans
3.15 P.M	Discussion	

3.30 P.M – 4.30 P.M

Technical Session VIII

Human Resource Development and Health concerns

Chairperson: Dr Biswajit Maitra, Assistant Professor & Co-ordinator, Department of Economics, University of Gour Banga, Malda, West Bengal

3.30 P.M	Jitendra Gupta	Addressing the Disease Burden of Asthma and Chronic Bronchitis due to the Tobacco Consumption: A Study of Kanpur, India
3.45 P.M.	S.O. Shohe and N. Srivastav	Health Status and Economic Life of the Rural Aged People in North Eastern Region of India
4.00 P.M.	Lakhimi Gogoi	Human Health: Individual and International Efforts for better Health of Child Waste Pickers: An Observation and Evaluation
4.15 P.M	Discussion	

4.30 P.M – 5.30 P.M

Valedictory Session

4.30 P.M	Welcome Address Chairperson: Prof. D. War, Head of Department, Economics, Synod College
4.35 P.M	Presentation of Bouquets
4.37 P.M	Brief Report of the seminar of the seminar Batskhem Myrboh, Joint Convener
4.50 P.M	Feedback from two Resource persons and two participants
5.00 P.M	Address by the Chief Guest, Dr Jemino Mawthoh, Department of Adult and Continuing Education, NEHU and former member of Meghalaya Legislative Assembly.
5.25 P.M	Vote of thanks: Dr Ibandalin Wanswett, Department of Economics, Synod College.

Title - *Special Lecture by Mr. L. Marbaniang on Acids, bases and electron transport systems*

Date - 14-04-2018

REPORTS

Special Lecture by Mr. L. Marbaniang

Date: 14.4.18

Topics: Effects of Buffer

Buffer is an aqueous system that can resist the changes in the pH of the solution when a small amount of acid and bases is added. Most of the time we consider that our buffer system is intact, however many cations and anions do take part as a common ion in a buffer system.

Topic: Concept of acid and bases

An acid is a molecule or ion that can produce proton. A base is a molecule or substance that can produce a hydroxyl group.

Topic: Significance of K_m and V_{max}

K_m is the Michaelis-Menten constant. It is defined as the substrate concentration that gives half V_{max} of an enzymatic reaction.

V_{max} is the enzyme velocity by which the enzyme is equal to the concentration of substrate.

V_{max} can also be used to calculate the turnover number of K_{cat}

Topic: Electron Transport system

Discussion on the movement of electron in various complexes, generation of proton motive force, translocation, chemiosmotic theory, backflow, binding change mechanism

SPECIAL SCREENING FOR M.A. STUDENTS, POLITICAL SCIENCE ON 27th JUNE, 2018

SHRI WANPHRANG K. DIENGDOH (DOCUMENTARY MAKER)

Ref. No. Pol.Sc./P.G./Sy.Co./2018/05

Dated: June 25, 2018

To,

The Principal
Synod College
Shillong.

(Through the Coordinator IQAC)

Sub: Permission to screen Documentary in the Department.

Ma'am,

This is for your kind information that the Department of Political Science (P.G.Section) wishes to organise a screening of the acclaimed documentary, **Because We Did Not Choose** by noted documentary maker, Mr. Wanphrang K. Diengdoh on June 27, 2018 at 2:00 P.M. in the M.A. Classroom. The screening will be for students and faculty of the Department only due to limited seating space in the classroom.

In this regard, I request you to kindly grant permission for the same.

Thanking you,

Yours sincerely,

Dr. Charles Reuben Lyngdoh

Head
Department of Political Science,
Synod College, Shillong.

1. Copy to Coordinator, IQAC for kind information.

Title - *Special lecture cum seminar on “Merits and demerits of Social media”*

Date - 10-09-2018

Report on special lecture

Organised by

Science Departments, Synod college under DBT- star college scheme

Sponsored by

The Department of Biotechnology Ministry of Science and Technology, Government of India

Topic: “Merits and Demerits of Social Media”

Date: 10.09.2018

**Resource person: Shri. Timothy Dkhar
DDG NIC and SIO Meghalaya
NIC, Shillong, Meghalaya**

Total no. of participants: 271

Shri. Timothy Dkhar, Deputy Director General of National Informatics Centre, Shillong gave a special lecture on Merits and Demerits of Social Media. Social Media can be use as a tool to empower and update oneself and increase knowledge. Choose or select accordingly only the information needed. Social media can also lead to unsocializing. If one is addicted to social media it can lead to compromising certain things in life which, one may regret later on. One may be Smart Street because of the new gadgets and technologies but may not be able to perform well in life. The government also uses the social media, but only for sharing important information to make the public aware and create a transparency.

From the above lecture the student interact by asking questions to the resource person and benefitted from it. Teachers and students from the Departments of Botany, Chemistry, Physics and Zoology attended the special lecture.

Title - *Special Lecture cum seminar on “Personality Development by Mr. Eboten Kharkongor
Manager and Trainer Logos Foundation Shillong*

Date - 19-09-2018

Department of Zoology
Synod College
(Under DBT- Star College Scheme)

Report on special lecture

Topic: “Personality Development”

Date: 19th September, 2018

Resource person: Mr. Eboten Kharkongor
Manager and Trainer
Logos Foundation
Shillong

A special lecture was delivered by Mr. Eboten Kharkongor to the B.Sc. 5th Semester students from all four departments (i.e. Botany, Chemistry, Physics and Zoology) on “Personality Development”.

The resource person is a very young, energetic and dynamic person and he could really capture the attention of the students. He highlighted on the five main personality traits of individuals with special emphasis on the behaviour of the youths today. These are:

- | | | |
|--------------------------|----|----------------------|
| ● Inventive/Curious | vs | Consistent/cautious |
| ● Efficient/organised | vs | Easy-going/careless |
| ● Outgoing/energetic | vs | Solitary/reserved |
| ● Friendly/compassionate | vs | Challenging/detached |
| ● Nervous/sensitive | vs | Secure/confident |

He also accentuates on these different personality traits by inviting the students to volunteer and testing their behaviour by observing their response based on the task given to them. This has really enabled the students to boost up their confidence level and at the same time it has helped the audience to learn improve their personality in different situations.

After allotting the different task to the different group of students the resource person also presented on how one can develop a pleasant personality in day to day life by highlighting the following points:

- Good health (mind and body)
- Be confident
- Don't compare
- Positive Body language
- Smile
- Have integrity with respect
- Be positive
- Dress appropriately
- Be a good conversationalist
- Be you

The lecture has immensely help the students in the development of personality, as one has to struggle with environmental as well as behavioural patterns throughout the span of one's life. Students have also learned to adapt to varied situations and it has enabled them to bring modifications and changes in personality patterns as personality development is largely influenced by various biological as well as social environment.

Title - *Special Lecture cum seminar By Shri Sandeep Hamilton, Regional Director, Regional Centre for Exploration and Research, Atomic Mineral Directorate, Department of Atomic Energy, Government of India"*

Date - 25-09-2018

Report on special lecture
Organized by
Science Departments, Synod college under DBT- star college scheme
Sponsored by
The Department of Biotechnology Ministry of Science and Technology, Government of India

Topic: “Clean energy option with special reference to nuclear energy”

Date: 25th September, 2018

Resource person: Shri. Sandeep Hamilton
Regional Director
Atomic Mineral Directorate
Regional Centre for Exploration and Research
Department of Atomic Energy, Government of India, Meghalaya

Total No. of participants: 166

On this event, a special lecture was delivered by an eminent speaker Shri. Sandeep Hamilton, Regional Director, Atomic Mineral Directorate, Regional Centre for Exploration and Research, Department of Atomic Energy, Government of India, Meghalaya. In his speech he discussed on the significant role of nuclear energy as a source of clean energy. The speaker particularly stresses on the mineral resources like uranium found in the state of Meghalaya and the needs to utilize those resource in order to create revenue and become self –reliant. The speaker also emphasized on the various useful applications of nuclear energy such as in the field of medicine, agriculture, food preservation, sanitation etc. He highlighted on the various nuclear power stations that are present in our country and their uses. The speaker also spoke on the harmful effects of uranium mining and said that those who are against mining should see facts and not believe rumors. Fear of radioactive radiation and its harmful effects on the environment has prevented the state from utilizing this mineral. Uranium present in the state of Meghalaya is of higher grade and thus encourages the state to utilize the available resources.

At the end of the lecture, a lot of questions from both students and teachers were asked to the speaker particularly on the harmful effects of uranium mining to living organisms and the surrounding environment. The speaker responded to all the questions put up by the participants with so much enthusiasm, knowledge, clarity and passion. He also encourages and urged the

students to take up higher studies in this field so that they too will be boon for the state and the country as a whole.

Year - 2018

Title - *Special Lecture cum Seminar on the Restoration of ecosystems for sustainable development and fighting Climate Change by Dr. Bremley W.B. Lyngdoh, Founder and CEO, Worldview Impact Foundation*

Date - 27-09-2018

In frame: Dr. Bremley Lyngdoh delivering a special lecture on Restoration of Ecosystems for Sustainable Development and Fighting Climate Change on 27th September 2018 at 3:00 pm

On the 27th of September 2018, the Department of MA Political Science, Synod College held a special lecture on the 'Restoration of the Ecosystem for Sustainable Development and fighting Climate Change' delivered by Dr. Bremly W.B. Lyngdoh & Mr. Sai Kishore Nellore. The special programme was held at 3:00 pm in the MA 1st seminar hall.

The two speakers began their lecture by talking about the importance of trees and encouraged afforestation. They then proceeded to give general information about what is happening in Shillong at present pertaining to the environment & the issues related to it & how the environment issues and changes definitely affect our health. They also talked about what is happening to ecosystems around the world & their dwindling state. Further, they talked about the state of the air we breathe & the effects of human activities on the air leading to air pollution, widening of the ozone hole etc. It also affects human health & causes various respiratory diseases. They then brought up the conversation back to the importance of trees & how trees play a vital role in purifying the air.

The speakers also specifically mentioned about the declining rate of mangrove trees & their detrimental effect on the coastal ecosystem. They, therefore, worked with the local people in such areas in their endeavor to restore the ecosystem---discouraging cutting down of the mangrove trees and encouraging the planting of such trees.

Mention was also made about a project that was undertaken in Mawphlang (Project Saving Cloud Forest) where various measures were taken to ensure protection of existing trees & planting of new ones. Such measures included providing efficient rice cookers & LPG cylinders to the locals in order to reduce restoration.

Moreover, they spoke about the role of technology in planting trees which made the task in question relatively easier, less time consuming & also required less manpower. In this manner, drones are employed which shoot seeds encased in a biodegradable plastic pods toward the targeted area. Both the speakers emphasized their firm belief that indeed the act of initiation i.e planting trees is important but more so is the act of caring & nurturing the saplings. Apart from this, they also related to the students about the importance of green living & the advantages it brings thereof at the national as well the individual level.

After the lecture, the speakers, the teachers & the students engaged in an interactive session in which various questions were asked such as whether or not the drone technology can be implemented in the hilly region of North East India. The cost & advantages of green living particularly the use of solar panels, the Wahumkrah issue &

how to save the Umiak Lake were also addressed.

At the end of the lecture, they encouraged the teachers and the students to pursue green living & stand up to care for the environment beginning from one's own community & emphasized on a people - to people & village - to - village approach to make a difference in the environment.

Preface

I feel privileged to present to members of the Association and the general public this volume of Proceedings of the 39th session of the North East India History Association (NEIHA) held at Synod College, Shillong, Meghalaya on 1-3 November 2018. This Volume comprises of papers presented in the various academic panels and minutes of the business meetings held during the 39th session. We are thankful to the Organising Committee and the College authorities for their untiring efforts which made the session a great success.

At the offset of the Inaugural Function, Dr. D. Wanswett, the Principal of Synod College, Shillong welcomed the invited guests and other attendees. Dr. Rajen Saikia (who was elected to be the President of the 39 session during the 38th session at Mirza) kindly accepted the position and presided over this session. Prof. Amrendra Kumar Thakur, General Secretary, NEIHA, presented an account of the activities of the Association in his address. Shri Vincent H. Pala, Hon'ble Member of Parliament, Lok Sabha graced the Inaugural Function as Chief Guest and addressed the gathering. This was followed by the Presidential Address by Dr. Rajen Saikia. Their prowess and eloquence in oration left the gathering motivated and gave a great start to the session. Shri Kerl'ihok L. Buam, Local Secretary for the session presented the vote of thanks. The annual conference was attended by over two hundred members. Thus, it provided a platform for an academic congregation of teachers, students and researchers of history and its sister disciplines from northeast India and beyond to engage in insightful discourses through presentations of various papers.

All the participants of the session would recall with gratitude the affectionate hospitality of the management, faculty, other staff and students of Synod College, Shillong, Meghalaya and people at large. The artists who participated in the cultural programmes performed exceedingly well and were highly appreciated. This was the seventh session of NEIHA to be held in Meghalaya. We are grateful to the enthusiastic history lovers in the state.

I, the Editor of the Volume and the entire Editorial Board strived to maintain a certain academic standard in its publication. I acknowledge the continued support rendered by Dr. Rajen Saikia, General President of the 39th session during and after the session and am greatly thankful to him for

the same. **During the presentation of papers in the different academic sections of the session critical comments for improvements were made by the respective Chairpersons and other attendees. The Editorial Board further screened the papers after their final submission for consideration for publication. Thus, the papers included in the Volume have been comprehensively reviewed.** I am also thankful to ICSSR-NERC, Shillong and the ICHR, New Delhi for providing financial support for holding the Session.

Finally, I would like to express my gratitude to the Chairpersons of various academic sections during the three day session for their diligent comments on each and every paper. I am also thankful to the members of the Editorial Board for editing the papers and being decisive about their possible publication. Their commitment to the cause of NEIHA made my job as the Editor much easier. I would also like to thank the Treasurer, Prof. Amena N. Passah for managing the finances of NEIHA and Dr. Sagar Boruah for his dedication to NEIHA. My colleagues, research scholars and office staff of the Department of History, NEHU, Shillong also deserve my sincere thanks for helping us in running the Permanent Office of NEIHA and in the timely printing of the Proceedings Volume. In particular I am thankful to Dr. Raktim Patar, Dr. Rusievan Shangpliang, Ms. Babhador Khongdup and Ms. P. Gracefulness Bonney for their relentless services to NEIHA. Last but not the least Mr. Pradeep Kr. Shaha and his staff of Modern Offset, Shillong deserve our heartfelt thanks for their passionate efforts in getting the Volume ready in time for release during the 40th session.

Title - *Special talk cum seminar on Investor financial Awareness on NSE- SEBI*

Date - 15-02-2019

Report of the Special Talk on “Investor Awareness Programs” organised by the Department of Economics, Synod College on the 15th February 2019.

The special talk on “Investor Awareness Programs” was conducted on the 15th February 2019 in the conference hall of the college organised by the Department of Economics in collaboration with the Department of Commerce. The resource person for the special talk was given by Mr Pratyush Bhaskar a spokesperson of the NSE-IPFT which is a trust set up under the Bombay Public Trust Act, 1950. In accordance with the trust deed NSE-IPFT carries out a number of activities for educating investors, igniting young minds in colleges and universities by creating awareness amongst the investor communities and to promote research in the field of capital market.

The programme started with a welcome address from Dr. I. Wanswett, HOD economics department and all the teachers from the department of economics and commerce were present together with the students of around 100 in number.

The resource person talks about the growth of the capital market and coming from the financial hub of the country i.e., Mumbai investors play a very important role in stock exchanges and in the protection for investors given through the Securities and Exchange Board of India (SEBI) in India. He gave what can we as investors do and to know about the growth of the capital sector in India. SEBI has been established in India with the prime objective to protect the interest of the investors in securities. Thus, as SEBI tried to build the capacity of the investors first thus, resource persons from NSE and SEBI are giving awareness to people in all of North East India so that people can be made aware and to enable an investor to take informed investment decisions.

The special talk brought a new dimension to the students since being an investor is a new topic altogether and questions were asked and discussed.

The vote of thanks was delivered by Dr. I. P. Khongjoh, Assistant professor, Department of Economics

Title - *Special lecture on National Science Day - 2019 on the theme Science for the people and the people for science*

Date - 28-02-2019

A Report on Special Lecture on the
Celebration of National Science Day- 2019

Theme: "Science for the people and the people for Science"

Organised by

The Chemistry Departments under the DBT- Star College Scheme, Synod College, Shillong.

Sponsored by

The Department of Biotechnology, Ministry of Science and Technology, Government of India

Venue: Hall 301

Date: 28th March, 2019

Time: 10.00 AM

The Department of Chemistry of Synod College, Shillong celebrated the National Science Day on 28th February, 2019. The theme for the event was "Science for the people and the people for Science". A total of 94 B.sc Students of the college and 4 faculty of Chemistry Department attended the Celebration. The programme was chaired by Dr. S.S. Islam, Associate professor & H.O.D. Department of Chemistry, Synod College. Dr. D. Wanswett, Principal of Synod College delivered a welcome address for the teachers and students of Synod College who joined the celebration. The Resource Persons for this event was Dr. R. M. Lyngdoh, Associate Professor, Zoology Department. The speaker delivered his speech, giving an impetus to the students to favor Science and Technology for shaping their career while also emphasizing on the co-relation of Science and the people. Furthermore he highlighted the importance of science in our daily life and gave an insight into activities, efforts and achievements in the field of science which is useful for the people, society and for welfare of human beings. The programme was closed with a vote of thanks proposed by Dr. W. Kharmawphlang Associate Professor, Department of Chemistry and coordinator DBT Star College Scheme, thanking and glorifying the Principal of Synod College for delivering the welcome address, the chairman of the programme, teachers and students who participated in the programme, he also thank the Resource person for sparing the time, interesting speech and sharing his knowledge and she also thanks all the faculty members and students whose presence had made the programme a great success. She also acknowledge the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event.

Title - Awareness Programme by. Asst. Lecturer Mr. R. D.L. Sunn on “Impact of Coal Mining”

Date - 01-03-2019

Project Report

An awareness programme entitled 'Impact of Coal Mining' was conducted by Assistant Lecturer Mr. Rene D L. Sunn of Synod College on 1st March 2019 at 1:30 P.M at the conference hall of the college.

The programme was attended by 109 students belonging to the B.Sc VI Semester.

With rampant unsustainable and unscientific mining activities occurring in the state, our environment is also degrading with each passing day at an alarming rate.

So therefore by conducting this programme, it will be of great help in impacting and sensitizing the young minds of the college about the need to adopt sustainable mining activities as well as to ensure the conservation of the environment in the state with great zeal.

Special Lecture cum seminar on Environment Pollution and E-Waste Management by ShriM. Passi & Shri. S. Agarwala solid waste management trainer, GEMS Group (REKART), sponsored by ministry of electronics and Information Technology, Government of India.

Date - 08-03-2019

Report on Special Lecture on : "Environmental Pollution and E- Waste Management".

An Awareness Programme on "Environment Hazards of Electronic Waste".

Organized by the Department of Chemistry and Department of Environment, Synod College, Shillong.

Date : 8th March 2019

Venue : Conference Hall

The Special lecture on Environmental Pollution and E- Waste Management was held on the 8th March 2019 at the Conference Hall , Synod College, Shillong, organized by the Department of Chemistry, under the DBT-Star College Scheme. and Department of Environment.

The programme started with registration of students and teachers in which a total of 150 participants attended. The function was chaired by Dr. R.M. Lyngdoh, Associate Professor , who delivered the welcome address in which he briefed the gathering about the objectives of Solid Waste Management trainer , GEMS Group, REKART. He also appreciated the faculty members of Chemistry and Environment departments and the Resource persons for organizing and choosing our College to conduct this programme. On this event, a special lecture was delivered by two speakers Shri M. Passi and Shri S. Agarwal, Solid Waste Management Trainer, GEMS Group. (REKART). The two speakers in their presentation states that " Today"s electronic gadgets is Tomorrow electronic Waste". At present the menace of e-waste is a global challenge. They said that according to the Global E-Waste Monitor 2017, Our Country generates about 2 Million tonnes (MT) of e-waste annually, and rank fifth among e-waste producing countries, after US., China, Japan and Germany. In 2016-17, India treated only 0.036 MT of its e-waste. About 95% of the country e-waste is recycle in the informal sector and in a crude manner. This has lead to a harmful effect to the environment and human health as well. The speakers express their concern over the hazardous substances that is release to the environment . They explain how e-waste can be segregated, recycle and which ones are non recyclable. The harmful substances emitted from e-waste are Lead (Pb), Plastic, Chromium(Cr) and Mercury(Hg). These harmful substances produces from e-waste can cause Air pollution, Water pollution and land pollution. But by proper management of e-waste through segregation, recycling and proper disposal one can overcome this problem & challenges, and instead it can also boost one's economy and even the State through Circular Economy.

The programme came to an end with a vote of thanks from Shri R. Sunn, Asst. Lecturer, who thanked the Principal, Dr. R. M. Lyngdoh for chairing the programme, the two speakers for their very interesting and informative topics. He also thank all the faculty members and students present in the programme. He also thanked the Ministry of Electronics & Information technology, Govt. of India. For sponsoring the event.

Title - *Special Lecture cum seminar on Politics of Higher Education: Equity versus Excellence*
By Prof. G.Haragopal , National Law School, Bangalore

Date - 19-03-2019

In frame: Prof. G. Haragopal delivering a lecture to students on “Politics of Higher Education: Equity and Excellence”

A Report On

The Special lecture delivered by prof. G.Haragopal

Date 19/03/19

A special programme was organised by the department of Political science (PG) Synod college, Shillong on the topic “Politics of Higher Education: Equity and Excellence”. It was delivered by Prof. G. Haragopal who was currently a professor in NLSIU (National Law School of India University, Bangalore) and a civil right activist.

DETAILS OF THE LECTURE

With much of his zeal and enthusiasm, Prof Haragopal delivered his lecture in the presence of the faculty members of Synod College headed by the principal with the Teaching Staff along with BA and MA students.

At the very outset, he spoke about the necessity of protecting the education system in India by emphasizing on the two goals of education i.e., implementing conscience of a nation and responding towards the social needs. He further stressed on the sacred social relations between a society and an individual based on the public funded education and private education. On one hand, he defined public funded education as a system in which the society spends on education and in return the individual serves the society. It brings about equality where everyone can enjoy their right to education. But on the other hand, private education which demands great resources was challenged by him because it is confined to only particular sections of society and breeds inequality in society. In this kind of privatised education, an educated person looks at his job as a commercial zone where he can benefit directly which ruptures the relation between the educated and the society. He even talks about the unequal distribution of wealth which was brought about by privatization whereby 73% of wealth was enjoyed by one person and majority of the people depends on agriculture where labour force became rampant leading to inequality in our society.

Last but not the least, he mentioned that in order to rescue the Poor and for democracy and the nation to survive, education must be given without any discrimination which can be brought about by public funded education.

Title - *Special lecture cum seminar on “Scope of Horticulture”*

Date - 27-04-2019

Report on the special lecture on 'Scope of horticulture'

ORGANISED BY

DEPARTMENT OF BOTANY

UNDER DBT STAR COLLEGE SCHEME

Total no. of participants: 111

The Department of Botany under the DBT- star college Scheme organized a special lecture on the 27th April 2019, on the theme: "Scope of Horticulture"

The programme was chaired by Ms. N.C. Marbaniang (HOD) of Botany Department. She welcomed and introduced the Resource Person, Shri. A Dkhar, Dy. Director of Agriculture (Plant Protection), Shillong, Government of Meghalaya

Shri A. Dkhar spoke at length on the scope of horticulture in Meghalaya. The geo-climatic situation of Meghalaya offers an excellent scope for growing of different types of horticultural crops including fruits, vegetables, spices, and plantation crops, medicinal and aromatic plants of high economic value. The hilly terrains and land conditions of the state do not offer much scope in bringing additional area under the wet cultivation, but the state possesses vast potential for developing horticulture.

Horticulture in Meghalaya is on the path of a major transformation/paradigm shift and major positive changes are taking place in horticultural sector in the state:

The Technology Mission in Horticulture has effectively facilitated major area expansion, introduced new crops and technologies and provided visibility and focus for horticulture. New/non-traditional crops are relatively introduced into the state and are exemplified by crops like capsicum, broccoli, Strawberries, Cashew nuts, and flowers like Carnation, roses, Anthurium, Liliiums, Leather leaf ferns, Gerbera, Orchids etc. leading to an expansion of marketable crops which generates additional income and employment amongst farmers.

Both indigenous and exotic vegetables are grown across a wide range of agro climatic zones. Cultivation of off-season cabbage, cauliflower, broccoli etc. has become a special feature in the state. A special effort has been made through the HMNEH Scheme to expand more areas under vegetable so as to meet the ever increasing demand of vegetables in NER. Meghalaya has tremendous potential for the development of horticulture to generate income

and employment for the farming community. A large extent of land is available in the form of fallows, cultivable waste and miscellaneous tree crops. Most of this land is in hill slopes and is more suitable for plantation and fruit crops than traditional agronomical crops. With diversity in elevation, temperature, topography and rainfall a variety of horticultural crops can be grown. The total geographical area of Meghalaya is 22, 429, 00 Ha. Approximately, out of which the net cropped area is 2.85 lakh ha. (12.73% of its geographical area). The unutilized potential area is about 5.55 lakh ha or 24.76 % of the total area.

The vote of thanks was proposed by Smt. F.S. Khonglah.

Date - *06-06-2019 to 07-06-2019*

REPORT OF THE INTERNATIONAL SEMINAR HELD ON THE 6th - 7th JUNE 2019

"Understanding Water Crisis: The Way Forward"

Organized by

Synod College, Shillong in collaboration with P.A. Sangma Foundation and Meghalaya Basin Development Authority

David Arnold Kharchandy
Organizing Secretary

The Seminar was inaugurated by Shri Conrad K. Sangma, Hon'ble Chief Minister, Government of Meghalaya in the presence of the Guest of Honour, Shri Metbah Lyngdoh, Hon'ble Minister, Water Resources Department, etc., Government of Meghalaya. Lectures relating to the theme were delivered by various distinguished personalities and experts such as Dr. Rajendra Singh popularly known as the "Water Man of India" and an Magsaysay Awardee, Dr. Arvind Kumar, the President of the India Water Foundation and Shri. K. J. Joy, Society for Promoting Participative Ecosystem Management (SOPPEOM) who delivered the Keynote Address.

The papers presented by eminent scholars and experts both from the country and abroad, delved into the various aspects of water crisis in India and other countries and covered vast

ranging topics such as Impact of Industrialization on Indian Rivers, India and China on the Brahmaputra: Of Reality and Rationality, Near - Real - Time Biomonitoring of Heavy Metals in Malaysian Rivers using the Xenoassay® system, Indigenous Partnership for Agrobiodiversity and Food Sovereignty Our Water Crisis: Lessons from the Meghalaya water Foundation Discourses, Catchment / Water shed management,

Amphibians as Bio-indicators of water pollution, and Water and Climate Change or Water Resources Depletion among many others.

Another interesting aspect of this seminar is the Resource Persons Local Session which was Chaired by Dr. W. R. Kharlukhi. The paper presenters included Rapionglang Blah, Secretary, Synjuk Ki

Nongshynshar Shnong Ka Bri Hynniew Trep, Geoffery S. Basan, Headman, Mission Compound, Shillong, Badonbok Pyngrope, Headman, Nongrahi, Shillong, Bamut Kharbangar, Headman, Jaiaw, Shillong, H. B. Rymbui, Headman, Nongtalang Mission Village, West Jaintia Hills District, Kynsai Manik Syiem, Former Sordar Hima Khyrim and Nangsan Pakyntein, Headman, Lumsophoh, Nongthymmai. In this session, local issues and problems pertaining to water crisis were heatedly addressed, debated and discussed with positive observations and suggestions brought into the limelight. On the valedictory function, Dr. C. R. Lyngdoh read out the Meghalaya Water Declaration which received the consent and signature of all those present before being presented to the Government. All in all, the seminar proved to be a highly productive one.

 HOD
 DEPARTMENT OF EDUCATION (PG)
 SYNOD COLLEGE

Special Lecture: Department of Education, MA Programme
Synod College, Shillong

Lecture by: Kerlihok Lyngdoh Buam
Assistant Professor, Department of History,
Synod College, Shillong

The topic:

1. Historical Research
2. Historical Criticism – External and Internal Criticism
3. Interpretation of Data.

Keeping in mind the importance of projects, field works and academic research, the lecture was frame and prepared in such a manner to achieve the following learning objectives:

- I. Students will be able to acquire knowledge on historical criticism in research and inculcate in them the importance of criticism not in the sense of disapproval or the examination of faults and mistakes, but instead is an analysis of the text in the hope of better understanding it.
- II. Students will be able to engage in systematic research processes, frame questions, read critically and apply observational and experimental approaches to obtain information.
- III. Students will be able to develop in written papers well-reasoned historical arguments, supported by judicious use of sources.
- IV. To make the students apprehend that by adopting historical method, they will be able to conduct intensive research and come up with new findings.
- V. Students will be able to differentiate the differences between external and internal criticism and impart in them the capacity to place their arguments on the sources collected.
- VI. Students will be able to learn the importance of interpretation of data in any research.

Discussion/ Lecture:

- Definition of Historical Research – Here the students were made aware of the term Historical Research and how the researchers can employed historical method in reporting events and/or conditions that occurred in the past which is also an attempt to establish facts in order to arrive at conclusions concerning past events or predict future events.
- Discussion on the term 'Criticism' as per the Cambridge Dictionary and Merriam-Websteras to make the students understand the meaning and how it was used in the context of research.
- A thorough discussion on the definition and the goal of Historical Criticism and a discussion on how did Criticism start in historical research.
- An explanation on External criticism as authenticity of data and Internal criticism as accuracy of data, giving emphasis more on the differences between the two criticism.
- The last lecture was on the importance of the Interpretation of Data in a research.

Topic: Historical Methods

Sub-topic: Sources of Data Collection

Keeping in mind the importance of projects, field works and academic research, the lecture was frame and prepared in such a manner to achieve the following learning objectives:

- I. Students will be able to acquire knowledge on sources of data collection and inculcate in them the importance of using sources in research.
- II. Students will be able to distinguish the different types of sources used in Historical study.
- III. Students will be able to learn the importance of interpretation of data in any research.
- IV. Students will be able to build up their research based on well-reasoned historical arguments, supported by critical use of sources.

Teaching points:

- Definition of Historical Method– Here the students were made aware of the term Historical Method and how historical method can be use by researchers in reporting events of the past which is also an attempt to establish facts in order to arrive at conclusions concerning past events or predict future actions.
- Discussion on the term 'Sources' and 'Data Collection' and how they are used in Historical study/ research.
- A thorough discussion on how sources are classified in historical study.
- An explanation on the different types of sources with examples: Literary, Archaeological, Primary and Secondary Sources and how to differentiate them from one another.
- The last part consists of the importance of sources in research.

Date - Oct-19

150TH BIRTH ANNIVERSARY CELEBRATION OF MAHATMA GANDHI

2ND OCTOBER 1869 – 2ND OCTOBER 2019

David Arnold Kharchandy
Convener

To commemorate the 150th birth year of Mahatma Gandhi, Synod College organized the following events: (i) Sketching Competition on four themes: "Clean and Green India"; "Swachh Bharat in Meghalaya"; "India's struggle for freedom" and "An eye for an eye ends up making the whole world blind." This competition was open to all Schools, Colleges and Universities and witnessed an overwhelming response from schools around the city. (ii) An exhibition of coins, currency notes, stamps, books written by and about Mahatma Gandhi (iii) a sale cum exhibition of items done by the Department of Sericulture and Weaving, Government of Meghalaya, to promote the concept and idea of Swadeshi and Sustainability as expounded by Gandhi. (iv) Quiz

Competition on the theme "Revisiting the Legacy of the Mahatma at 150 years" in which many Schools and Colleges participated. Simultaneously, on the same day, a workshop was organized for the staff of the Shillong Municipal Board on a very pertinent theme: "The danger of hazardous domestic wastes on Municipal waste collectors and segregators". The Resource Persons for this workshop was Mr. Palvy Dora Kharkongor and Ms. Larisa Lakadong, Community Organizers, State

Investment Project Management and Implementation Unit, Department of Urban Affairs, Government of Meghalaya.

On the 1st of October, 2019 the 150th Birth Anniversary Celebration of Mahatma Gandhi proceeded with a special

talk on "Mahatma Gandhi and the North East India", delivered by Prof. David Reid Syiemlieh, former Chairman Union Public Service Commission, New Delhi. The Chief Guest in this function was Smt. Matsiewdor War Nongbri, IAS and Deputy Commissioner East

Khasi Hills District, Govt of Meghalaya. To mark the occasion, the Chief Guest and the main speaker, along with the Management of the College unveiled

memorial Plaque set up in the auditorium of the College to mark the 150th Birth Anniversary of the Father of the nation. Various institutions across the city, members of the civil society, Headmen of different localities and others were present for the lecture. After the special talk, the Chief Guest and the speaker gave out cash prizes to all the winners of the Sketching and Painting competition held on the 28th of October, 2019.

The College, along with the Directorate of Information and Public Relations, Government of Meghalaya also organized a documentary show on the

1st and 2nd of October, 2019 in U Soso Tham Auditorium on the "Life and Times of Mahatma Gandhi," in which 44 Schools and 20 Colleges were invited. On the 2nd of October, 2019, a cycling competition was organized by the College. The competition was open to all and we witnessed a great turn out by cycling enthusiasts and others members of the public. The Deputy Director of the Department of Sports and Youth Affairs Government of Meghalaya, Shri J. R. Marak along with the Principal of the College flagged off the event.

The celebration then commenced further at 10:00 am on the same day as we embarked to Laitkroh Village. The College had taken the initiative for a cleaning drive of the village along with the NSS Synod College Unit, Indian Red Cross Society Synod College Unit, DBT Hub, Science Club, Environment Club, Students from the Boys Hotel and Post Graduate Students of the Department of Political Science. The Deputy Commissioner, the Block Development Officer of Laitkroh, the local Headmen and his Executive Committee along with the active participation of the villagers and the Women Self Help Groups also participated in the campaign which turned out to be a great success. The campaign started off with an awareness programme about cleanliness and Gandhi's ideals in which the speaker was Mr. Kerliok L. Buan, Head, Department of History. The honourable Chief Minister Government of Meghalaya, Shri Conrad K. Sangma was the Chief Guest on the occasion. He expressed his delight and gratefulness to the College, especially to the students for having sacrificed a holiday for such a noble cause. He was overwhelmed at being the first Chief Minister of the State to set foot in Laitkroh village. He applauded the village authorities and the Dorbar Shnong for hosting such initiatives and setting an example for the future generation.

We are grateful to all our collaborators who have worked together with the College to make the celebration a memorable one: The Deputy Commissioner, East Khasi Hills District, Smt. Matsiewdor War Nongbri, Department of Sericulture and Weaving, Department of art and Culture, Department of Sports and Youth Affairs, Department of Information and Public Relations, Department of Urban Affairs, The Shillong Municipal Board, Office of the District School Education Officer, Sub-Divisional School Education Officer, & Sarva Shiksha Abhiyan, Public Health Department (Through

Superintending Engineer, PHE (Rural) & Office of the BDO Khatarshnong - Laitkroh, The Shillong Recreational Trust Group, State Bank of India, Burra Bazar Branch, The BDO of Laitkroh, Headman and the Dorbar Shnong of Laitkroh.

We would also like to express our gratitude to the following teachers for their contribution of Articles on the Life and teachings of Mahatma Gandhi. These articles were published in local newspapers from the 28th of September, 2019 continuously till the 2nd of October, 2019 with an intention to spread the message, teachings and principles of this great man. Our appreciation goes to Mr. Airpeace Rani, Assistant Professor, Department of Political Science (UG), Ms. Drimsimai Syiem, Head of the Department of Khasi, Mr. Esmarjune Kharpran, Assistant Professor, Department of Khasi and Dr. Joyfull Sawkmie, Assistant Professor, Department of Khasi.

Special lecture on Analysis Of Variance (ANOVA) for MA Education on the 10th October 2019

Analysis of Variance (ANOVA) is a parametric statistical technique used to compare datasets. This technique was invented by R.A. Fisher in the 1920s, and is thus often referred to as Fisher's ANOVA, as well. It is similar in application to techniques such as t-test and z-test, in that it is used to compare means and the relative variance between them. However, analysis of variance (ANOVA) is best applied where more than 2 populations or samples are meant to be compared.

The analysis of variance originated in agrarian research and its language is thus loaded with such agricultural terms as blocks (referring to land) and treatments (referring to populations or samples) which are differentiated in terms of varieties of seed, fertilizers or cultivation methods.

Today however this analysis finds application in nearly every type of experimental design, in natural as well as social sciences.

Types of ANOVA

Analysis of variance (ANOVA) has three types:

One way analysis: When we are comparing more than three groups based on one factor variable, then it is said to be one way analysis of variance (ANOVA). For example, if we want to compare whether or not the mean output of three workers is the same based on the working hours of the three workers.

Two way analysis: When factor variables are more than two, then it is said to be two way analysis of variance (ANOVA). For example, based on working condition and working hours, we can compare whether or not the mean output of three workers is the same.

K-way analysis: When factor variables are k, then it is said to be the k-way analysis of variance (ANOVA).

Analysis of variance (ANOVA) in SPSS

In SPSS, analysis of variance (ANOVA) can be performed in many ways. We can perform this test in SPSS by clicking on the option "one way ANOVA," available in the "compare means" option. When we are performing two ways or more than two ways analysis of variance (ANOVA), then we can use the "univariate" option available in the GLM menu. SPSS will give additional results as well, like the partial eta square, Power, regression model, post hoc, homogeneity test, etc. The post hoc test is performed when there is significant difference between groups and we want to know exactly which group has means that are significantly different from other groups.

Key terms

F-ratio: To calculate the F-ratio, the sum of the squares between groups will be divided by the sum of the square within a group.

Degree of freedom: To calculate the degree of freedom between the sums of the squares group, we will subtract one from the number of groups. The sum of the square within the group's degree of freedom will be calculated by subtracting the number of groups from the total observation.

BSS $df = (g-1)$ for BSS is between the sum of squares, where g is the group, and df is the degree of freedom.

WSS $df = (N-g)$ for WSS within the sum of squares, where N is the total sample size. Significance: At a predetermine level of significance (usually at 5%), we will compare and calculate the value with the critical table value. Today, however, computers can automatically calculate the probability value for F-ratio. If p-value is lesser than the predetermined significance level, then group means will be different. Or, if the p-value is greater than the predetermined significance level, we can say that there is no difference between the groups' mean.

Sum of square between groups: For the sum of the square between groups, we calculate the individual means of the group, and then we take the deviation from the individual mean for each group. And finally, we will take the sum of all groups after the square of the individual group. **Sum of squares within group:** In order to get the sum of squares within a group, we calculate the grand mean for all groups and then take the deviation from the individual group. The sum of all groups will be done after the square of the deviation.

One -Way ANOVA

The one-way analysis of variance (ANOVA) is used to determine whether there are any statistically significant differences between the means of three or more independent (unrelated) groups.

The one-way ANOVA compares the means between the groups you are interested in and determines whether any of those means are statistically significantly different from each other. Specifically, it tests the null hypothesis:

Where μ = group mean and k = number of groups. If, however, the one-way ANOVA returns a statistically significant result, we accept the alternative hypothesis (H_A), which is that there are at least two group means that are statistically significantly different from each other.

Title - *International Seminar entitled "Eye for Eye: Conflict in South East Asia", 6th & 7th November, 2019*

Date - *6th & 7th November, 2019*

A BRIEF REPORT OF THE TWO DAY INTERNATIONAL SEMINAR ON EYE FOR AN EYE: CONFLICT IN SOUTH EAST ASIA

Organised by the English Dept, Synod College on 6th -7th November 2019

On the 6th -7th November, 2019, the English Dept. Synod College organised its first ever International Seminar on the theme Eye for an Eye: Conflict in South East Asia. This seminar which is interdisciplinary in scope and intent was jointly funded by Synod College, ICSSR, New Delhi, North Eastern Council and DIPR as its media partner. The two days seminar saw a host of eminent personalities, resource persons, scholars, artists, policy makers and students from the North Eastern region, the country and abroad converging on a common platform to debate and engage on a wide variety of themes related to conflict in its multi-dimensional aspect.

South East Asia, has been the hotspot of contestations and clashes through decades, whether it is the Khmer Rouge Cambodia, the Vietnam War, the Indonesian conflict or the more recent Myanmar - Rohingya crises, to name just a few. Hence, the reason for this particular topic. 'What can history teach us about the conflicts that have scarred these different nations and communities?' 'In what ways has conflict shaped the consciousness and psyche of a people experiencing it?' 'Can we truly chart a course to a future devoid of conflict, or at least minimize them?' 'How is it perceived and expressed by writers and artistes in their work?' These, and some other questions are what this seminar seeks to engage with, as is evident from the papers that were presented.

Another significant area that this interdisciplinary interaction touches upon, at a more local and personal level for this particular region of India, the North East, is the contribution it can make on policy talks on the Act East Policy of the Indian Govt.

because of the strategic positioning of North East India as a corridor that links the Indian sub-continent with South East Asia. Though India is geographically not part of S.E. Asia, yet, the position of its North Eastern states and the connection it seeks to have with S.E. Asia through this region makes the study of conflict in the present context a highly relevant one.

Yet another significant component of this seminar is the Art Exhibition. Aptly titled, Eyeing Conflict, this exhibition is a visual narrative that brings together 10 artistes from different states of the North East to explore and examine, from their perspective, the multi-dimensional aspects of conflict and contestation in our globalized world.

The Inauguration of both the Seminar and the Art Exhibition was graced by Shri Kyrmen Shylla, Honourable Minister of Social Welfare, Revenue, Disaster Management, Govt of Meghalaya as the Chief Guest while the Keynote Address was given by Prof

Harshana Rambukwella, Director of Post Graduate Institute of English, Open University of Sri Lanka and Honorary Faculty, School of English, University of Hong Kong. Other noted speakers in the seminar were Prof Fakrul Alam from the University of Dhaka,

Bangladesh, Baidik Bhattacharya from the Centre of Study of Developing Societies, New Delhi, Nimmi Kurian, Centre for Policy Research and Academic Advisor, India China Institute, The New School, New York, Kethoser Kevichusa from Nagaland and author of award-winning book *Forgiveness and Politics: A Critical Appraisal*, Sukalpa Bhattacharjee, Prasenjit Biswas, and Jayanta K. Sarma.

On day two of the seminar, a Panel Discussion was held to deliberate on how to chalk out the possible ways and means of resolving conflict and seek for peace building and better understanding between nations and people not only at the level of discourse but also at the grass root level. The discussion was moderated by Prof T. K. Kharbamon, Director of EFLU, Shillong and the panelists were Shri Frederick. R. Kharkongor, IAS, Shri H. Nongpluh, IPS and Additional DGP, Harshana Rambukwella and Kethoser Kevichusa.

The Valedictory Address was delivered by Prof Prasanta Das, Dean of Humanities, Tezpur University.

It is hoped that the seminar, through the multi levelled interaction of the academic, the policy making process, the visual and the performing arts, will meaningfully contribute to the scholarship of Conflict and Peace studies and also help foster a spirit of constructive cooperation and dialogue in a world pockmarked by violence, thereby, generating a better understanding of ourselves, of each other, and of the urgent need to respect one another as citizens of a shared planet.

Feedback

Dear CISEA team, Convener and the Organizing Secretary,

At the very outset I extend my heartiest congratulations and deepest appreciations for a successful two days international seminar. The sessions were carefully planned out and the plenaries were insightful, interesting and intriguing. The scholars and experts from the different arenas of humanities and social sciences and the interaction made the seminar an enriching one for me. The teams discipline to stick to the schedule was commendable too. I also appreciate the efforts of the visual artists who had put up their exhibits on the theme.

Once again, thank you for your emphasis on learning and sharing and rising beyond the "formalities" of grades/points to which such academic seminars are usually rooted.

I wish the team of Synod College the very best in all their future endeavours.

Regards
Rajani K Chhetri
Asst. Professor

Department of Mass Media,
St Anthony's College, Shillong.

Congratulations for holding the seminar successfully.

God bless you and the college. - @ H. Nongpluh
Thoroughly enjoyable and stimulating evening
Gayreen.

Was a pleasure to be associated with your programme.
Heartiest Congratulations to you and your team for a wonderfully organised seminar
All the best and God Bless - @Frederick Roy Kharkongor

Date - 29-10-2019

REPORTS

Department of Zoology Synod College (Under DBT- Star College Scheme)

Report on special lecture

Topic: “Introduction on Sericulture”

Date: 29th October, 2019

**Resource person: Dr. Collins Z Renthlei
Scientist B
Central Silk Board
Ministry of Textile
Government of India**

Sericulture is the art and technology of raising of silkworm for production of raw silk yarn. Silk fiber is a protein which is produced from the silk gland of silk worm. Silk is a natural fiber and queen of textiles and is one of the most expensive and demanded fiber in the world. Sericulture activities may be broadly divided in to two sector -

1. Pre cocoon
2. Post cocoon

There are different species of silkworm and India produces four kinds of silk – mulberry, tasar, muga and eri. Some of the major pests of silkworm are white flies, stem borer, mealy bug.

The raw silk is used in the manufacture of woven materials and the knitted fabrics for the preparation of garments, parachutes, parachute cords, fishing lines, insulation coil for telephones, tyres of racing cars, etc.

**COEFFICIENT OF CORRELATION BY PEARSON'S PRODUCT MOMENT
METHOD
FOR
GROUPED AND UNGROUPED DATA**

Grouped and Ungrouped Data:

The word data refers to information that is collected and recorded. It can be in form of numbers, words, measurements and much more. There are two types of data and these are qualitative data and quantitative data. The difference between the two types of data is that quantitative data is used to describe numerical information. For instance, the measurement of temperature would fall under this kind of data. On the other hand, qualitative data is used to describe information in words. After collecting data, it needs to be organized hence the need to separate grouped data from ungrouped data. Both are useful forms of data but the difference between them is that ungrouped data is raw data. This means that it has just been collected but not sorted into any group or classes. On the other hand, grouped data is data that has been organized into groups from the raw data.

Meaning of Correlation Analysis:

The correlation analysis refers to the techniques used in measuring the closeness of the relationship between the variables. According to Croxton and Cowden, "When the relationship is of a quantitative nature, the appropriate statistical tool for discovering and measuring the relationship and expressing it in brief formula is known as correlation". In the words of Simpson and Kafka, "Correlation Analysis deals with the association between two or more variables".

Types of Correlation:

Three of the most important ways of classifying correlation are:

1. Positive and Negative Correlation: - Whether correlation is positive or negative would depend upon the direction of change of the variables. If both the variables are varying in the same direction, then correlation is said to be positive and if the variables are varying in opposite direction, then correlation is said to be negative.
2. Simple, Partial and Multiple Correlation: - When only two variables are studied it is a problem of simple correlation, 'when three or more variables are studied it is a problem of either multiple or partial correlation. In multiple correlation three or more

variables are studied simultaneously, whereas in partial correlation we recognize more than two variables, but consider only two variables to be influencing each other, the effect of other influencing variables being kept constant.

3. Linear and Non-Linear Correlation: - If the amount of change in one variable tends to bear a constant ratio to the amount of change in the other variable then the correlation is said to be linear. Correlation would be called non-linear or curvilinear if the amount of change in one variable does not bear a constant ratio to the amount of change in the other variable.

Methods of Studying Correlation:

1. Scatter Diagram Method
2. Graphic Method
3. Karl Pearson's Coefficient of Correlation
4. Coefficient of Correlation by Rank Differences
5. Concurrent Deviation Method
6. Method of Least Squares

KARL PEARSON'S COEFFICIENT OF CORRELATION

Correlation coefficients are used in statistics to measure how strong a relationship is between two variables. There are several types of correlation coefficient: Pearson's correlation (also called Pearson's r) is a correlation coefficient commonly used in linear regression. In fact, when anyone refers to the correlation coefficient, they are usually talking about Pearson's. Karl Pearson measure of correlation between two variables is called the coefficient of correlation and is also known as product moment correlation. The Pearson coefficient of correlation is denoted by the symbol r and the formula for computing it is as follows

$$r = \frac{\sum xy}{NS_X S_Y}$$

where x and y are deviation scores, that is,

$$x = X - \bar{X} \text{ and } y = Y - \bar{Y}$$

S_X and S_Y are sample standard deviations, that is,

$$S_X = \sqrt{\frac{\sum (X - \bar{X})^2}{N}}$$

Correlation coefficient can also be calculated without taking deviations of items either from the actual mean or assumed, i.e., by taking the actual values of X and Y and applying the formula:

$$r = \frac{n(\sum xy) - (\sum x)(\sum y)}{\sqrt{[n\sum x^2 - (\sum x)^2][n\sum y^2 - (\sum y)^2]}}$$

Interpretation of r :

Correlation coefficient formulas are used to find how strong a relationship is between data.

The formulas return a value between -1 and 1, where:

- 1 indicates a strong positive relationship.
- -1 indicates a strong negative relationship.
- A result of zero indicates no relationship at all.

A correlation coefficient of 1 means that for every positive increase in one variable, there is a positive increase of a fixed proportion in the other. For example, shoe sizes go up in (almost) perfect correlation with foot length.

A correlation coefficient of -1 means that for every positive increase in one variable, there is a negative decrease of a fixed proportion in the other. For example, the amount of gas in a tank decreases in (almost) perfect correlation with speed.

Zero means that for every increase, there isn't a positive or negative increase. The two just aren't related.

The absolute value of the correlation coefficient gives us the relationship strength. The larger the number, the stronger the relationship. For example, $|-0.75| = 0.75$, which has a stronger relationship than 0.65.

Example:

1. Making use of the data below calculate the Correlation coefficient:

Roll No. of Students:	1	2	3	4	5
Marks in Paper 1:	48	35	17	23	47
Marks in Paper 2:	45	20	40	25	45

2. Find the value of the correlation coefficient from the following table using direct method.

SUBJECT	AGE X	GLUCOSE LEVEL Y
1	43	99
2	21	65
3	25	79
4	42	75
5	57	87
6	59	81

Correlation of Grouped Data:

When the number of observations is large, the data are often classified into two-way frequency distribution called a correlation table. The formula for calculating the coefficient of correlation is given by:

$$r = \frac{N \Sigma f d_x d_y - (\Sigma f d_x) (\Sigma f d_y)}{\sqrt{N \Sigma f d_x^2 - (\Sigma f d_x)^2} \sqrt{N \Sigma f d_y^2 - (\Sigma f d_y)^2}}$$

Title - *Special lecture cum seminar on “Activities of GSI”*

Date - 03-12-2019

REPORT ON THE SPECIAL LECTURE
ORGANISED BY
DEPARTMENT OF BOTANY
UNDER DBT STAR COLLEGE SCHEME
HELD ON THE 3RD DECEMBER 2019

Total no. of participants: 90

The Department of Botany under the DBT- star college Scheme organized a special lecture on 3rd December 2019, on the theme: “Activities of Geological Survey of India, and life through the ages”

The programme was chaired by Ms. N.C. Marbaniang (HOD) of Botany Department. She welcomed and introduced both the Resource Persons i) Dr. S. Shome, DDG Mission IV, NER, Shillong and Dr D Mukherjee, SUPTDG, Geologist, NER, Shillong.

Dr Shome spoke on the various activities of GSI with special reference to the north-eastern region of India. He mentioned the different types of rocks found in Meghalaya. He also talked about the different projects taken up by GSI to explore the rare earth elements and rare metals in parts of the NER like Meghalaya, Arunachal Pradesh and Assam. He also added that GSI, NER has carried out different studies particularly in the field of Geotechnical and Geo hazards management, climate change and ecosystems.

Dr. D. Mukherjee spoke about the different types of fossils of both plants and animals. She stressed that nothing exists on this earth for itself alone but always have an inter-relationship with other forms of life. As a result of drastic change in the ecosystem, plants and animals have undergone a lot of evolution.

Dr. H. Swer proposed the vote of thanks.

After the programme, students got a chance to observe and learn about the fossils that were brought a displayed by GSI.

Title - *National Science Day Special Lecture cum seminar on Celebration of National Science Day - 2020 on "Women in Science"*

Date - 28-02-2020

A Report on
Celebration of National Science Day- 2020

Theme: "women in science"

Organised by

The Chemistry Departments under the DBT- Star College Scheme, Synod College, Shillong.

Sponsored by

The Department of Biotechnology, Ministry of Science and Technology, Government of India

Venue: Hall 301

Date: 28th February, 2020

Time: 10.00 AM

National Science Day 2020 is celebrated on 28th February, 2020 at Hall 301 in Synod College Shillong, with this year Theme "women in science" this event is organised by the Departments of Chemistry Synod College Shillong in collaboration with the three Science department, i.e., department of Botany, Physics, Zoology and with the Science Club and Environment Club Synod College, Shillong. A total of 46 B.Sc Chemistry honours Students of the college and 5 faculty of Chemistry department attended the programme. The programme was presided by Dr. W. Kharmawphlang, Associate Professor, Chemistry Department and gave a brief introduction about the significance of celebrating National Science Day on 28th February and the importance of 'women in science' as this year focal theme. Dr.R. M. Lyngdoh, Principal of Synod College delivered a welcome address for the teachers and students of Synod College who joined the celebration. The Resource Person for this event was Dr S.S. Islam, Head of the Chemistry Department. She delivered the address on the significant contribution of women in the field of science such as in education, medical and health care, engineering, etc. She also shared the improvements coming in the status of women in the country by getting engaged in employment opportunities in various sectors, including science and technology. There is an increase in their enrolment in these fields, even in higher educational institutions. On her speech she said that the contribution of women in science and technology are not only important in enriching their lives, but through their effective participation in these fields, they are contributing towards promoting well-being of the community and nation as a whole. The programme was closed with a vote of thanks proposed by Shri. N. Kharbani, thanking the Principal of Synod College for delivering the welcome address, the chairman of the programme, teachers and students who participated

in the programme, he also thank the resource person for her interesting speech. He also expressed his gratitude to the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event.

CELEBRATION OF NATIONAL SCIENCE DAY 2020:28th February, 2020

Wkhomaphlang
Dr. Winnydora Niering
H.O.D
Department of Chemistry
Synod College, Shillong

REPORT ON NATIONAL SCIENCE DAY CELEBRATION -2020

The Department of Physics, Synod College celebrated the National Science Day on the 28th of February, 2020. The theme for this year's celebration was "Women in Science".

The department arranged a program to celebrate this day by organising a lecture talk on the theme "Women in Science" by Smti. G. A. Kharsyntiew, faculty member of the department.

All the Physics honours students of the college participated. There were altogether 30 students along with the teachers who were 5 in number who attended the program.

The programme was chaired by Shri M. D. Wanswett, Assistant Professor of the department who welcomed all the students and the teachers. Smti. G. A. Kharsyntiew in her address spoke about the National Science Day and explained that it was first celebrated on February 28, 1987. She also reminded the student about the great scientist that India produced Dr. C. V. Raman who discovered the Raman Effect and was awarded the Noble prize for his work in 1930. National Science Day is now celebrated every year to commemorate this discovery of the Raman Effect. The speaker also highlighted the objectives of celebrating this national science day.

Speaking on the theme "Women in Science" the speaker noted that women's contribution to science covers a wide range of subjects from mathematics, chemistry, biology, bio-chemistry, physics etc. and this is a very vast topic to discuss, so she restricted herself to highlight the achievements of a few prominent women scientist working in the field of physics and its related areas. The Speaker spoke about the illustrious career and achievements of the most famous woman scientist in the world Madam Marie Curie who was awarded the Noble prize twice, for Physics in 1903 and for Chemistry in 1911. The speaker shed light on the work of Marie Curie and her husband Pierre who were both working on radioactivity. They managed to extract two previously unknown elements polonium and radium both more reactive than uranium. Her research was crucial to the development of X-rays in surgery. Her daughter Irene also followed in her parents footsteps and also won the Noble Prize in Chemistry in 1935 along with her husband Frederic Joliot.

The Speaker also spoke about the contribution of other female scientist such as Lise Meitner an Austrian-Swedish scientist who contributed to the discovery of nuclear fission.

Referring to the contribution of women scientist in India the speaker spoke about some of the reputed scientist such as Janaki Ammal who was the first Indian scientist to receive the Padma Shri award in 1977 and went on to become the Director General of the Botanical

Survey of India. Another prominent scientist was Kamala Sohoni who had to battle a lot of gender biased prejudice and managed to enter into one of the prestigious science institutes of the country. The speaker highlighted the difficulties faced by women in the days before the 20th century when women scientists were a minuscule minority and had to endure inconveniences, restrictions and even humiliation compared with their male counterparts. The Speaker said that in today's world things have greatly improved and women are encouraged to take up science. India today has a large pool of women scientists who are contributing to the development of the country and are respected for the work that they do.

The Speaker also spoke about the new generation of women scientists in India such as Tessy Thomas known as the "missile lady" who is involved as the project director for the Agni IV and Agni V missile in DRDO and is the first Indian woman to have headed a missile program. Another prominent scientist is Ritu Karidhal Srivastava who was the Deputy Operations Director to India's Mars Orbital Mission. The students also participated by interacting enthusiastically.

The Speaker concluded by encouraging students to be inspired and encouraged by these women who in spite of challenges were able to do ground breaking work in their field and prove that they are no less capable than their male counterparts. These women should be the role models of future young scientists of the country and students are to emulate them and shine in life.

After the lecture the vote of thanks was delivered by Shri. G. S. Kharkongor, faculty member of the department and the programme came to a close.

Title - *Special lecture on "I am generation equality realising women's rights" organized by the Women's Cell, Dept. English and Sociology*

Date - 09-03-2020

REPORT ON THE OBSERVATION OF INTERNATIONAL WOMEN'S DAY ON THE 9TH MARCH 2020

The Office of the District legal Services authority, East Khasi Hills District, in collaboration with the Women Cell and the Departments of English and Sociology of Synod College, organised a special programme on the 9th March 2020, on the occasion of International Women's Day.

The Theme of the programme was 'I am Generation Equality: Realizing Women's Rights.' The Covener of the Women Cell, Synod College, Smti I. Pyngrope welcomed the Resource persons, staff of the District Legal Services Authority, Faculty of the College, as well as the Students. The programme began with a speech by Smti Daisily Thangkhiew, Advocate who presented the legal aspect of Women's Rights. She emphasised the importance of legal literacy and the need to know and understand laws that concern women, especially in terms of sexual abuse, juvenile crime, domestic violence and maintenance. This was followed by a speech by Smti Christine Fanaii, Deputy Superintendent of Police, East Khasi Hills, who gave an account of the role of the Police in safeguarding the rights of women and children. She also spoke at length about crimes against women in the context of the state of Meghalaya. The Assistant Director, Meghalaya Administrative Training Institute, Smti Ivyreen Warjri gave an exhaustive presentation on the status of women, globally and nationally with an emphasis on the state of Meghalaya. Shri D.S. Marbaniang, Secretary District Legal Services Authority, reiterated the role of the LSA in providing free legal service to women in search of justice and protection of their rights. There was a great deal of interaction between the students and the Resource Persons on many issues concerning women. The programme closed with a meaningful item presented by the Manbha Foundation. A vote of thanks was rendered by a representative of the DLSA, Shillong.

Altogether about 108 participants benefitted from the programme. They consisted of College students and representatives of Lam Jingshai and Manbha Foundation as well as Faculty Members. The programme was a great success and the organizers resolved to have many more programmes in future.

Date - 22-07-2020

SYNOD COLLEGE MAGAZINE

A Brief Summary on the Programme "Addressing Students' Emotional Health Issues and Well Being"

- Dr. (Ms.) R. Lapasam
Asst. Prof. Education Department (PG)
Convener, Counselling Cell

The Counselling Cell, Synod College, Shillong in collaboration with the Internal Quality Assurance Cell of the College organised an online interactive session on the theme "**Addressing Student's Emotional Health Issues and Well Being**" with Dr. Charles Joseph through a Zoom Meeting on the 22nd July, 2020. Dr. Charles Joseph is a Former Lecturer and Lead Clinical Therapist in the Department of Physical Medicine and Rehabilitation, CMC, Vellore and is currently working as Speaker and Trainer with the RZIM, India. The programme was hosted by Dr. (Ms.) R. Lapasam, Convener of the Counselling Cell. The interactive session was recorded and uploaded in the College website as well as the College YouTube Channel so as to enable the students of the College to view the programme.

Questions collected from the students were condensed and reduced to about 8 related to different categories of emotional health, ranging from stress to fear, depression, anxiety, uncertainty, worry, negative thoughts and addiction. Based on these questions, the Resource Person spoke about emotional health, causes of fear, worry and tension among the students and also suggested ways and measures to cope up with emotional health issues and challenges. The programme was well received by the participants.

Title - *Online special lecture cum seminar on “Adolescents Mental Health and social stigma*

Date - 10-10-2020

A Report of the Special Lecture on "World Mental Health Day" (10th October, 2020)

-Mrs. Monica N. Laloo
Asst. Prof, Sociology Department
(Convener of the Programme)

The Department of Sociology organised an online special lecture on "Adolescents Mental Health and Social Stigma" on the 10th October 2020. The programme was conducted to mark the World Mental Health Day, 2020 thereby drawing the attention of students and teachers alike regarding the importance of mental health and highlighting the problems associated with it. Mrs. Monica N. Laloo who is the convener of the programme chaired the sessions of the lecture. It was attended by the 3rd and 5th semester students of the Sociology Department numbering around 84 of them besides the faculty members of the Department. The two speakers were Dr. Arvind Nongpuir, MD, DPM, Assistant Professor, I/C Psychiatry, NEIGRIHMS, Shillong and Major, Dapple D. Wankhar, Assistant Professor, Armed Forces Medical College, Nursing, Pune.

The speakers gave a brief account regarding mental health around the world. Most of the mental health conditions account for 16% of the global burden of diseases and injury in people aged between 10 to 19 years. Most of the mental health diseases occur at the age of 14 but in many cases they are undetected and untreated. Suicide is the third main cause of death in individuals between 15 to 19 years old. Children and adolescents develop different mental disorders. Children less than 10 years of age develop disorders like mental retardation or learning disabilities while adolescents develop functional mental disorders. Any change of behavior from the normal day to day behavior of the child should be taken into account and help from a medical expert should be sought. Adolescent mental issues include emotional, behavioral and eating disorders which can also lead to suicide and selfharm, risk taking behaviours, psychosis and alcohol abuse.

Dr. Arvind Nongpuir highlighted the different anxiety disorders during adolescents such as social anxiety disorder, generalized anxiety disorder, panic anxiety disorder and acrophobia. Childhood depression which is on the rise may not be noticeable in the child as

in the case of an adult. A child is not able to express his or her emotions and hence certain actions such as anger outburst and tantrums may be indications of depression. Adolescence is a period marked by frequent mood swings, irritability and argumentativeness which are normal. However, any change of behavior from the normal day to day behavior should be taken into account and seek appropriate help.

Dr. Nongpuir also spoke about 'stresses'. He pointed out that stress is present in almost all situations and it is a part of our day to day life. The important issue related to stress is how we handle it. The condition of too much stress may result in self harm and at times taking one's own life. An individual needs to learn how to handle various situations of stress. One can also seek help from parents, friends and teachers if they feel that they cannot handle the stress. The support system is very important in the day to day life of an adolescent to fight against stress.

Some common indications of stress include disturbed sleep, lack of appetite and lethargy. Subtle indicators of stress for an adolescent include patterns such as coming late to class, problem of concentrating in studies and not wanting to talk to friends. An individual should reach out to others when he or she feels stressed as it is very important on how one copes with stress rather than what causes the stress. It is usually the peers, family and teachers who recognise the problems rather than the individual. Appointment of counselors in schools and colleges can go a long way in helping the child and adolescents to recognize their problems. He also focuses on the problems and issues caused by the Covid19 pandemic. He highlighted that normal classes have changed to online mode in which some students are able to adapt the change and some are not. The pandemic has also created fear among the people of contracting the virus; individuals are not able to meet their near and dear ones and the future is unknown hence it increases the anxiety level among the individuals. This fear and anxiety has created stress among the people.

Major Dapple D. Wankhar focused on issues related to mental illness such as social stigma and the like. This little word 'stigma' causes big problems such as disrespect, discrimination and discourages people from getting help. Stigma can either be overt or subtle. Overt stigma are negative comments about people with mental health illness and discrimination whereas subtle signs are the ideas that an individual has about people suffering from mental health such as being harmful or dangerous. Mental health stigmas are of two types: social stigma and perceived or self-stigma. Social stigma is the discrimination and prejudice faced by a person who is suffering from mental health conditions as a result of the psychiatric label given to them. Perceived or self stigma

is the personal perception of the individual suffering from mental health conditions. There are many causes which lead to social stigma of people suffering from mental health, some of which are ignorance, lifestyle, media stereotyping behaviour of mental illness, fear, lack of treatment facilities, lack of information system and economic instability.

She also spoke at length about the effects of social stigma on an individual who suffers from mental health. Social stigma leads to detrimental effects upon an individual such as loss of confidence and low self esteem, failure to seek medical help and counseling due to the shame associated with it, loss of job and lack of employment, rejection, feeling of under value and isolation. Stigma can be manifested in many ways such as physical stigma where people living with mental illness are not allowed to share the same physical space with others. Social stigma takes place when individuals are isolated socially from the rest of society and eventually the individuals social structure starts dissolving. Verbal stigma is when people use verbal abuse, pejorative language to people suffering from mental illness. Lastly institutional stigma is when the person suffering from mental illness loses his or her job and faces discriminatory practices due to their condition. Towards the end of her lecture, she also talked about the ways in which we can fight against stigmatisation associated with mental illness like educating people about the misconceptions of mental illness and replacing them with facts. Other ways to fight against stigmatization related to mental illness is by changing public attitudes about mental illness by having direct interaction with those suffering from mental illness and protesting the negative behaviour associated towards mental illness.

Dr. Arvind Nongpuir

**A REPORT ON ONLINE SPECIAL LECTURE
TO CELEBRATE INTERNATIONAL YEAR OF PLANT HEALTH-2020**

ORGANISED BY

Science Departments, Synod College

Under the DBT-Star College Scheme

**Sponsored by the Department of Bio-Technology, Ministry of Science & Technology,
Government of India**

Google meet link: <https://meet.google.com/pnf-jruh-efi>

The Science departments of Synod College, Shillong organised an online programme on the 14th December, 2020 hosted on google meet to celebrate the International year of Plant Health-2020 (IYPH-2020) under the DBT-Star college scheme. This programme has been sponsored by the Department of Bio-Technology, Ministry of Science & Technology, Government of India.

The programme was started with online registration with a total of 100 participants including the resource persons. Subsequently, the inaugural function took off at 10.00 AM which was presided by Dr. G. Lyngdoh, Co-ordinator IQAC. Dr. R.M. Lyngdoh, Principal delivered the welcome address for the distinguished speakers, faculties and students. In his speech he provided some glimpse on the importance of plant health and the problem faced by plants due to diseases, poor environmental conditions and stress. He also appreciated the Science departments for taking the initiatives and making this programme a huge success.

The entire programme was allocated into two sessions:

⇒ **Session I:** 10:30 AM – 11:45AM

Chairperson: Smt. N.C. Marbaniang, H.O.D. Dept. of Botany

Special lecture by Dr. L.C. Borah, Professor & H.O.D of Plant Pathology, A.A.U, Jorhat, Assam

He talks on the importance of plant protection in general and the protection of crop against plant diseases in particular. Pathogens can have a severe impact on plant health. Diseases management is an essential component for the maintenance of plant health. The speaker emphasized on the practiced of organic farming and used of organic pest management to control pest, as overuse of chemicals in the past century has degraded the environment in alarming way.

He also spoke on the importance of healthy soil in plant health management and elaborated the role of beneficial soil micro-organism viz. plant growth promoting N-fixing cyanobacteria, rhizobacteria, mycorrhizae, plant disease suppressive beneficial bacteria, stress tolerance entophytes and bio-degrading microbes in promoting plant growth and protecting against pathogens and pest.

Besides, the speaker highlighted some of the microbial bio-pesticides formulations developed at Assam Agricultural University (AAU) like Biofor Pf-2 a vermicompost based biopesticides, Biotime tale based and liquid biopesticides, Biometa, Biogreen and Biogreen-L. He thus encouraged the use of beneficial microbes for the benefit of soil fertility, crop growth and pest control.

⇒ **Session II:** 12.00 Noon – 1:30 PM

Chairperson: Dr. D. Marngar

Special lecture by Dr. P. Debnath, Professor, Department of Virology, A.A.U. Jorhat, Assam.

The speaker delivered a lecture on the topic “Protecting plant health: Safeguarding future”. He emphasised the different techniques on how to identify, diagnosed and combat plant diseases. In order to fight against various infectious diseases caused by insect, birds, rats, nematodes, etc., with normal control measures practices is not enough to keep in check the health and overall growth of the plant. Whereas, knowing the root caused that give rise to diseases causing agents of the plants is important. Various methods have been highlighted to serve for the purposes like biological methods, serological methods, western blotting, lateral flow device, PCR etc.

In conclusion he also mentioned the general plant diseases management practices such as avoidances, exclusion, eradication etc.

⇒ At the end of each session, students were offered to contact both the speakers and posed their queries via chat box.

⇒ The programme ended at 2:00 PM. Smt. G. Kharsyntiew, H.O.D., Dept. Of Physics delivered the vote of thanks. She acknowledged the resource persons for sharing their expertise and insightful talk, the Principal, Vice Principal, Co-ordinator IQAC, faculties of the Science Departments and students for their esteemed participations. She also thanked the Department of Bio-Technology, Ministry of Science & Technology, Government of India for the overwhelming support.

Report on On-line Special Lecture

Topic: Composite Fish Culture

Resource Person: Mr Rudolf Pakyntein

Subject Matter Specialist – Fisheries

Krishi Vigyan Kendra (KVK)

West Khasi Hills, Meghalaya

Date: 16th December, 2020

Composite fish culture is the technology in which more than one type of compatible fish species are cultured simultaneously in the same pond. The main principle of composite fish culture is to increase the growth of fish through full utilization of natural food organisms in all the niches present in the pond, supplemented by artificial feeding. The different compatible fish species which are of mutual benefit to each other have different feeding habit and habitat, therefore there is no competition for food and space. There are three types of culture system – extensive culture, semi extensive culture system and intensive culture system. The fishes selected in pond culture are such that they have a faster growth rate, able to find food in ponds, adaptation to climate, resistance to disease and tolerance to the changes in the physio-chemical factors. Altogether six species of carps are cultured – three indigenous carps which includes catla, rohu and mrigal, and three exotic carps which includes silver carp, grass carp and common carp.

There are three steps involved in the composite fish culture

1. Pre stocking management
2. Stocking management
3. Post stocking management

Harvesting is normally done after one year when the fish has attained marketable size. A production of 2.5 to 3 tonnes/ha can be obtained in a year and this can vary depending on the agro climatic conditions and management practices.

Title - *Special Lecture cum webinar Celebration of IUPAC Global Women's Breakfast - 2021 (IUPAC GWB2021) on Empowering Diversity in Science by Prof. R.D.H. Lyngdoh, North Eastern Hill University, Shillong*

Date - 09-02-2021

A Report on

'IUPAC- Global Women Breakfast'

Special lecture on Empowering Diversity in Science

Organized by the Chemistry Department Synod College Shillong

under the DBT-Star college Scheme

Sponsored by

The Department of Biotechnology, Ministry of Science and Technology, Government of India

Venue: College Auditorium

Date: 9th February, 2021

Time: 9.30 AM

Chemistry Department of Synod College Shillong, under the DBT-Star College Scheme organized a special Lecture on 'IUPAC- Global Women Breakfast' 2021, Empowering Diversity in Science. This special Lecture was held at the College Auditorium. The total number of 68 Students and 20 faculty participated in this programme. The programme was chaired by Vice Principal of Synod College Dr. M. Rani. Thereafter Dr. R.M. Lyngdoh Principal of Synod College Shillong delivered a welcome address, he delighted welcome Prof. R.H. Duncan Lyngdoh, Professor Chemistry Department, NEHU, Shillong, Dr. M. Rani Vice Principal of Synod College Shillong, Dr. G. Lyngdoh Coordinator IQAC, Coordinator DBT, faculties of Synod College and all the B.Sestudents who attended the lecture. Prof. R.H. Duncan Lyngdoh, Professor Chemistry Department, NEHU, Shillong, is the Resources Person in this event on his speech he mentioned that women scientist are playing an important by taking active part in the development of technologies. He stated that regardless of efforts given to women to access to education in science and technology in some countries the research shows that they are still significantly under-represented in many degree programs. At the present moment all over the world, with small exceptions, women take an active role and demonstrate their abilities in a lot of spheres. The growing temps of technological development and popularity of feminism, women do not still possess equal position in the society. "Although women and girls make up approximately 50 per cent of the global population, they have access to much less than half of the resources in the field of science and technology. Gender equality and normal work conditions for both, men and women are the characteristics of any normal society and it is necessary to pay attention to the problem of gender inequality in science and technology because this can be

beneficial for the development of these spheres. Moreover he said that Women should be encouraged to bring their vision in scientific leadership, and academic level. Science and technology brings economic growth and well-being to people and it is not only the empowerment of women through science and technology, but also the enrichment of science and technology through women's participation. The programme was closed with a vote of thanks from Dr. G. Lyngdoh gratifying the Principal and the chairman of the programme Vice-Principal of Synod College, Prof. R.H. Duncan Lyngdoh, teachers and students of various Science Department, the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event .

Title - *Special lecture cum seminar on “Global Warming: An emerging social problem”*

Date - 18-02-2021

A REPORT ON
AN INVITED TALK ON “GLOBAL WARMING: AN EMERGING SOCIAL
PROBLEM”

DEPARTMENT OF BOTANY, SYNOD COLLEGE
(UNDER DBT-STAR COLLEGE SCHEME 2020-2021)

Total no. of participants: 55

The Department of Botany, Synod College, Shillong, organized an invited talk on the topic Global Warming: An Emerging Social Problem on the 18th of February, 2021, held in the college campus.

The programme commenced with registration of students and teachers from four departments of the college viz., department of Botany, Zoology, Chemistry and Physics.

The programme was chaired by Miss N.C. Marbaniang, Head of Department of Botany. The welcome address was delivered by Sir S. Jyrwa, Vice-principal, in which he briefed on the subject of global warming and its negative impact on the environment. He also appreciated the faculty members of Botany Department for organizing the programme and the students for their active participation.

On this event, a special lecture was delivered by Dr. S. R. Joshi, Professor, Department of Biotechnology, North Eastern Hill University, Meghalaya. In his talk, the speaker discussed on man-made and natural causes of global warming and its effect on the environment which eventually impact human lives. He emphasized the effect of global warming on climate change which has caused serious problems to our ecosystem. He also talked about how climate change has resulted to rise in sea level, leading to the loss of coastal land, a change in precipitation patterns, increased risks of droughts and floods, and threats to biodiversity and highlighted on the strategies to control global warming.

At the end of the lecture, students were offered a ‘Q & A’ session with the speaker in which the speaker interacted with the students and answered many queries raised by the participants. The programme was concluded with a vote of thanks delivered by Miss N.C. Marbaniang.

Title - *Special lecture cum seminar on Education System in The Philippines*

Date - 24-02-2021

Department of Education (P.G)
Synod College Shillong
Special talk on
Education System in Philippine
Resource person: **Fr. Michael Makri SDB**
24.02.2021

Venue: Department of Education, P.G Building

The department of Education (PG) Synod College organized a special lecture on Education system in Philippine. The lecture was delivered by Fr. Michael Makri, SDB who currently is the director of Don Bosco Youth Centre, Shillong.

The resource person gave an account of the historical background of Education among the Pilipino. He further delved into the growth and development of Education system during the period of colonization by the US. He introduced the students into the system and policy of Education as propagated US in Philippine which is still prevalent and practice till date. He made a comparison on the points of similarity and diversion of their system of Education with our system of Education supported by the relevant examples as he had the advantage of experience both type of educational system in India and Philippine.

Wildlife Institute of India, Dehradun

The department of Education (P.G) Synod College Shillong organized a special lecture on 'Biodiversity conservation and wildlife' on the 28th May, 2021. The lecture was delivered by Dr. S. Lyngdoh, Department of Animal Ecology and conservation Biology, W II, Dehradun.

The lecture was conducted for the Post-graduate students of the Department of Education with the aim to introduce and to arouse interest among the students on wildlife preservation and conservation and appreciation of the rich biodiversity around us.

During his lecture the resource person shared about his areas of work and specialization such as conservation of large carnivores in the Himalayan system of India, conducted the various studies for establishing baseline information of tropical carnivores of the Eastern Himalayas and studies on the habitat selection by wolves and other carnivores in high altitude.

Later he also spoke about the rich biodiversity of our region and the need to take care and preserve some of the almost extinct wildlife from the region.

9th June, 2021

Time 10:00am onwards

National Education Policy 2020

M.A. Education 4th Semester

<https://meet.google.com/coh-dhsh-dge>

The department of Education (P.G) Synod College organized a Departmental student seminar for the 4th Semester Students on the 9th June, 2021 via the online platform (Google Meet) from 10:00am onwards. The keynote address was delivered by Mrs. V. Wahlang, HOD, Department of Education (UG), Synod College Shillong. The students were given 10 minutes to deliver on the topics allot to them pertaining to National Education Policy 2020. The seminar was concluded at 1:45 pm with a concluding remark from Dr. E. B. Majaw, HOD Department of Education (P.G).

The seminar provided the students with the opportunity to critically read into the new educational policy of the country and in their capacity they were able to a good extend to highlight some of the special features of the policy at various level of education and they also provided some of the their observations and queries on the success of the implementation of the policy.

Title - *Special lecture cum seminar on the Celebration of National Science Day- 2021: on the Theme : “Future on Science, Technology and Innovation: Impacts on Education, Skill & work”. Resource Person: Dr. A. Bhattacharjee, Professor of the Dept. of Physics, Nat*

Date - 26-02-2021

REPORT ON THE CELEBRATION OF NATIONAL SCIENCE DAY, 2021

The National Science Day was celebrated on the 26th February, 2021 at Synod College, Shillong by the Science Department on the theme "Future of Science, Technology and Innovation: Impacts on Education, Skills and Work" under the DBT-Star College Scheme. The day was celebrated to commemorate the discovery of the "Raman Effect" by Indian physicist Sir Chandrasekhara Venkata Raman.

The programme started with registration of students and teachers in which a total of 95 participants attended. The function was chaired by Shri. S. Jyrwa, Vice Principal. Dr. R.M. Lyngdoh, Principal delivered the welcome address in which he briefed the gathering about the objectives of celebrating National Science Day. He also appreciated the faculty members of Science departments for organizing National Science Day and students for their active participation in various activities conducted by the Science departments.

On this event, a special lecture was delivered by an eminent speaker Prof. A. Bhattacharjee from NIT, Shillong. In his speech he discussed on the contribution of science and technology in our day-to-day activities. He also laid emphasis on nano-science and urged the students to be more practical, innovative, skilful, curious and become good observers of scientific phenomena and in all the things they do.

Towards the end of the programme, certificates and mementoes were distributed to all the winners of the various competitions conducted under the DBT-Star College Scheme. Certificate of Participation was also given to all the participants.

The programme concluded with vote of thanks delivered by Dr. A.J. Iangrai.

Title - National Science Day Special Lecture "Some ideas and Experiments Of C.V. Raman "

Date - 26-02-2021

NATIONAL SCIENCE DAY CELEBRATION 2021

SPECIAL LECTURE

Organised by the Department of Physics Synod College, Shillong

Resource Person : Professor M.C Mahato

North Eastern Hill University, Meghalaya

Report on National Science Day Celebration 2021

The Department of Physics Synod College celebrated the National Science Day – 2021 on the 26th of February, 2021 by organising a special lecture in the college auditorium. The resource person for this lecture was Prof. M.C. Mahato, the Head of the Department of Physics, NEHU. He spoke on the topic “Some Ideas and Experiments of Dr. C.V Raman”.

The Participants for this programme included all the Physics honours students of 1st, 3rd and 5th Semester. 5th Semester Chemistry Honours students (PCM combination) and students of Mathematics Honours. The total number of student’s participants was 56 male students and 27 female students. The faculty members who attended were 14 in number along with the Principal Dr. R.M Lyngdoh and Vice Principal Dr. M. Rani.

The program was chaired by the Vice Principal Dr. M Rani. Registration of students and faculty was done at 10:00 AM. The welcome address was delivered by Dr. R. M Lyngdoh, Principal of the college who welcomed the resource person and thanked him for agreeing to deliver the lecture on the auspicious day. He also welcomed all the students and teachers to the programme.

Professor M.C Mahato then spoke about the National Science Day which is a day that celebrates the discovery of the Raman Effect. Dr. Mahato spoke on a number of experiments performed by Dr. C. V Raman which were pioneering work in their nature and also spoke about his contribution to Indian Science and to the field of light scattering. He talked about Dr. Raman’s Childhood, his early work as a civil servant and his years at the Indian Association for the cultivation of Science. He highlighted his personality: his hard work, discipline and highly motivated nature. He was awarded the Nobel Prize for his work on scattering of light in 1930.

Dr. M.C Mahato provided a very interesting lecture and presented a number of experiments and ideas of Dr.C.V Raman which many students have not heard about. The lecture and interaction with the students was very inspiring.

The programme was brought to a close by Smti. G A, Kharsyntiew who proposed the vote of thanks. She thanked the Principal for his welcome address and for his permission to hold the programme. She also thanked the resource person Dr. M.C Mahato for his lecture and for sparing his valuable time. She thanked Dr.M Rani, the Vice Principal, the faculty members of the different departments as well as the students and non-teaching Staff.

Title - *online programme cum webinar on "Covid Vaccination Awareness Campaign*

Date - 01-05-2021

Report on “COVID19 VACCINATION AWARENESS PROGRAMME” 1st May, 2021

-Smt. M. N. Laloo
Asst. Prof. Department of Sociology

The Department of Sociology, Synod College, Shillong organised an online programme on “Covid19 Vaccination Awareness Campaign” on the 1st May, 2021. The resource person for the programme was Dr. R. Laloo, District Immunization Officer, West Khasi Hills District. The programme was chaired by Smt. M. N. Laloo and attended by the students of the College. The Coordinator, IQAC, Synod College, Dr. (Mrs) G. Lyngdoh, gave the welcome speech which was followed by the speech from the resource person.

Dr. R. Laloo addressed the participants on Information, Education and Communication. He also gave clarification to the students regarding the Covid19 vaccination which is going on in the state of Meghalaya and the country as a whole. He highlighted about the numerous rumours in our community, particularly, in East Khasi Hills district related to the vaccination. He stated that the number of persons coming forward for the vaccination has not been very encouraging and therefore having a forum like this to speak to young people regarding these vaccines is an opportunity which he did not want to miss. There is an exponential growth in Covid19 cases in our state due to a new strain of the virus. The reproduction rate of this disease has increased which means the probability of a disease passing from one person to another is higher. Initially, the scientists calculated this reproduction rate at two, that is, one person who is carrying this disease can spread to two people but looking at the present trend they are now coming up with a figure of four to six similar to the measles virus. This means that every positive patient can spread to about four to six people. This is indeed a very high reproduction rate. The government has come up with strategies to combat Covid19 and one of them is vaccination. The first strategy is containment. The recent directives by the government whereby they're imposing lockdown and have vehicles put off the road; public transport has been affected and selective opening and closure of shops are all part of that strategy of containment. Another strategy for containment is the establishment of micro containment zones or simply containment zones. Positive patients in any locality or in any building or in any area are kept under containment and this has had a huge

impact in slowing down the spread of the disease.

The second strategy to control the spread of this disease is vaccination. He reminded that the covid19 vaccination in Meghalaya was initiated since the 16th of January 2021 and that it is going on in different phases. Initially, the vaccination programme targeted all the healthcare workers that includes doctors, nurses, lab technicians, pharmacists, ashas anganwadi workers and frontline workers i.e., those people who have a probability of coming into contact with a lot of people. Even people working in hazardous jobs were also included in this phase. With regard to the common people, the government stated that those above 59 years of age were to get the vaccine which was then reduced to 45 years of age. At present the government is rolling out the vaccination drive to people above 18 years. Our state and India as a whole have a shortage of equipment, be it ventilators, oxygen cylinders or even the medicines. That is why the two strategies that is containment and vaccination are very important. This covid19 vaccine are of different types and the most common and widely used is the CoviShield vaccine which is made by Serum Institute of India. CoviShield is a viral vector vaccine and the technology for making viral vector vaccines has been there since the 1990's. In India we are using the CoviShield which is the viral vector vaccine in which everyone who needs to get vaccinated will get two shots of this vaccine. They will be given on either arm which could be the left or right which is usually given on the non-dominant arm. The minimum time between two doses is 28 days. He also clarified that if one is missing the second shot within the 28 to 42 days, it's not a problem as one can still take it up to three months that is up to 90 days. However, he advised not to miss the second shot and to take it on schedule.

He also highlighted some of the side effects of the vaccination which are common in all vaccines. Some side effects of the covid19 vaccination are like fever which could be high grade fever or low-grade fever, body ache and knee ache; one can get general weakness or malaise, nausea and even vomiting. These are the normal side effects which do occur after vaccination. There are no reports of adverse events in Meghalaya. One of the most dangerous adverse events which can occur after vaccination is something called anaphylactic shock. It occurs when a person is allergic to any one of the ingredients or the compounds contained in the vaccine. Dr. R. Laloo further states that research by governmental or non-governmental institutions have been taken up to make sure that no untoward incidents occur after vaccination. People who are not eligible for vaccination as of now are pregnant women and women who are lactating or breastfeeding infants who are under six months of age.

There are a lot of misinformation, hearsay and rumours regarding vaccination and vaccines. There are rumours that this vaccine is being used for population control and that it's going to cause infertility in men and women so on and so forth. People with co-morbidities should take the vaccine. Co-morbidities are any chronic disease which a person is currently suffering from. People with co-morbidity should be given a priority when it comes to vaccination because it was seen from data not only in India but internationally that people who suffer from these morbidities have a high probability of dying of covid19 virus.

The next session was an interactive session with the resource person. The participants in the programme asked a number of questions and clarified their doubts with Dr. R. Laloo. The interactive session was then followed by a vote a thanks. Overall, the programme was well received.

Special Lecture
Biodiversity Conservation and wildlife
28th May, 2021
Department of Education (P.G)
Synod College Shillong

Resource Person
Dr. Salvador Lyngdoh
Department of Animal Ecology and Conservation Biology
Wildlife Institute of India, Dehradun

The department of Education (P.G) Synod College Shillong organized a special lecture on 'Biodiversity conservation and wildlife on the 28th May, 2021. The lecture was delivered by Dr. S. Lyngdoh, Department of Animal Ecology and conservation Biology, W II, Dehradun.

The lecture was conducted for the Post-graduate students of the Department of Education with the aim to introduce and to arouse interest among the students on wildlife preservation and conservation and appreciation of the rich biodiversity around us.

During his lecture the resource person shared about his areas of work and specialization such as conservation of large carnivores in the Himalayan system of India, conducted the various studies for establishing baseline information of tropical carnivores of the Eastern Himalayas and studies on the habitat selection by wolves and other carnivores in high attitude.

Later he also spoke about the rich biodiversity of our region and the need to take care and preserve some of the almost extinct wildlife from the region.

Brief Report of Special Lecture

On

“Pursuing Higher Education: Challenges and Opportunities”

Dated: 17th June, 2021 @2:30PM

Via Google Meet

Besides the curricular teaching-learning exercise, the Department of Political Science (UG), Synod College used to organize/conduct a number of extracurricular activities for the students. One such activity carried out on a regular basis is a special lecture. Normally, the special lecture is a one hour programme in which the invited speaker addresses and interacts with the students on a particular theme set by the Department. The special lecture for the year 2021 was held on the 17th of June on the theme “Pursuing Higher Education: Challenges and Opportunities”. The resource person for the lecture was Dr. Korsi Donrene Kharshiing, Assistant Professor, Department of Psychology, Jamia Millia Islamia University, New Delhi. Due to the Covid19 pandemic, the lecture was conducted online via google meet. The programme was attended by students of BA 6th Semester of both the Day and Morning Shift in the presence of all the faculty members of the Department. Mr. Banshan Marwein, a former student of the Department and a current PhD scholar of JNU attended the programme as a special invitee.

The programme was chaired by Dr. A. W. Rani who is also the teacher in-charge/convener of such programmes/activities in the Department. The programme started at 2:30PM with the welcome address from the chairperson. Mr. Banshan Marwein introduced the resource person to the participants of the lecture. The Department gratefully acknowledges his coordination in organizing the programme.

Gist of the lecture

Defining Higher Education

Higher education is normally identified with education at the university level, i.e., at the post graduate level and beyond. However, its meaning can vary depending on the context of the discourse. For instance, in the context of the All India Survey of Higher Education (AISHE), higher education is associated with any education obtained after completing 12 years of schooling or equivalent. It can be general, vocational, professional or technical in nature.

Why Pursue Higher Education?

While some pursue higher education because of passion many others in general do so for better career or job opportunities, personal development like improving self esteem and confidence. Some want to learn more and make greater contribution to the society. Because of the advancement of life and living standards, higher education has become an order of the day. In other words, we are living in an age where specialization of a particular field of knowledge is important in order to be socially relevant. Specialization of knowledge is normally dealt by higher education.

Challenges: The speaker highlighted the challenges of higher education in India in the following areas:

- Enrolment: Gross Enrolment Ratio in higher education in India is still low
- Quality of education needs improvement
- Lac of adequate infrastructure
- Faculty - shortage
- Research and Innovation

Challenges in Education due to COVID-19:

- Hampering of educational activities.
- Hindrance in employment opportunities.
- Lack of training of teachers and students for online education.
- Digital divide.
- Mental health concerns.
- Overreliance on internet use and devices.
- Financial burden for parents and students.

Opportunities in Higher Education:

- Economic opportunities
- Better standard of living and health
- Civic Involvement.
- Personal Development.
- Realization of passions.
- Sense of accomplishment.
- Greater sense of discipline.
- Better communication.

Q&A: The resource person interacted with the participants in which the following questions were addressed:

- How can one get motivation in pursuing higher education? (Banshan Marwein)
- How will COVID-19 change higher education in the long run? (Jeremy Blah)
- Is it advisable for people who don't want to get into the line of teaching to go for further studies? Or should they just go for coaching for various jobs? (Sanwaka Surong)
- What is the methodology/approach adopted by Jamia Millia Islamia University for open book examination? (Dr. A. W. Rani)
- Why do you think education in Meghalaya is deteriorating? (Wanrimeka Marbaniang)
- Suggestion towards mental health? How can one be mentally stable during these critical times? (Arwin Gary Kharnaor)

The lecture was concluded with the formal vote of thanks proposed by Smt. S. Hnamte. Overall the lecture was informative, interesting and inspiring.

Title - *Workshop on Basic Counselling Skills for Teachers*

Date - 16-07-2021

Counselling Cell Synod College Shillong

Report on the Programme “One Day Workshop on Basic Counselling Skills for Teachers.”

Name of the Programme – One Day Workshop on Basic Counselling Skills for Teachers

Date- 16th July, 2021

Time – 04:00 – 06:00 PM

Sponsoring Organisation- Internal Quality Assurance Cell, Synod College Shillong.

Organiser –Counselling Cell Synod College, Shillong.

Resource Person – Naphisabet Kharsati-Trained Clinical Psychologist, Mental Health Activist currently practicing at SANKER.

Time Duration: 2 Hour 15 Minutes

Summary Report

The Counselling Cell of Synod College Shillong in collaboration with the Internal Quality Assurance Cell of the College organised a One Day Workshop on Basic Counselling Skills for Teachers with Ms. Naphisabet Kharsati as the Resource Person through Google Meet. The programme was chaired by Miss Bamedabet N. Nonglait, Member of the Counselling Cell. 40 teachers have registered and participated in the Workshop. The participants were also given e-certificates.

The workshop was conducted in two sessions as follows:

Session I- Basic Counselling Skills for Teachers- The different skills required for helping the students cope up with their psychological and emotional problems were discussed. Verbal and Non-verbal skills were stressed upon.

Session II- Psychosocial Management during Covid 19 – Issues and incidents of psychological and emotional disturbances that may happened with anyone were being highlighted and ways and means of handling such situations were also pointed out.

The workshop concluded with a concluding remark, Assistant Professor, Department of Political Science.

Participant’s Feedbacks

“The workshop was excellent and has helped in molding the teachers on how to approach the students in the future” - *Smt. Deigratia N. Rani, Assistant Professor, Department of Education*

“The workshop was indeed very informative, an eye opener to many, an answer to the many doubts, it was elaborate and I hope that the basics of counseling is much retained by all and can be applied to those in need. A big thank you to the organising team and the resource person.” -*Smt. Daphi B. Lyngwa, Assistant professor, Department of English*

“1. Both the sessions are helpful in understanding how to deal with our students. 2. A request for future programs of this type is to make the sessions shorter with a short break.”- *Shri. Allando Raplang, Assistant Professor, Department of Computer Applications.*

“Its has been of great help to us especially in dealing with our students in the classroom.”- *Smt. P.G. Bonney, Assistant Professor, Department of History*

Title - *International Seminar on Safeguarding Tribal Identity: Concept and Implications*

Date - 09-09-2021 to 10-09-2021

REPORT ON INTERNATIONAL SEMINAR CUM WEBINAR DEPARTMENT OF SOCIOLOGY, SYNOD COLLEGE, SHILLONG

-Smt. M. N. Laloo
Asst. Prof. Department of Sociology

The Department of Sociology, Synod College organised an International Seminar-cum-Webinar on the 9th and 10th September, 2021. It was sponsored by the ICSSR-NERC, Shillong. The theme of the seminar was "Safeguarding Tribal Identity: Concept and Implications". The programme was divided into four technical sessions comprising of two groups, that is Group A and Group B with technical sessions held concurrently. The total number of papers presented was 43 and the number of presenters including co-presenters was 50 in number from different universities and colleges across the country and covering a wide range of issues related to tribal and tribal identity across the Indian subcontinent and the neighbouring countries. Besides, there were also presentations and talks delivered by renowned resource persons in every session of the webinar. The Inaugural function started with a welcome speech by Dr. R. M. Lyngdoh, Principal Synod College and chaired by Dr. M. Rani, Vice Principal, Synod College. Dr. W. R. Kharlukhi, Honourable MP (Rajya Sabha) graced the occasion as the Chief Guest. In his inaugural address, he highlighted about the relevance of the Webinar's theme "Safeguarding Tribal Identity: Concept and Implications" in the present context where the tribal minorities in the country are facing a plethora of threats and challenges. The Keynote Address was delivered by Prof. Virginus Xaxa, a renowned academician in the field of tribal studies and others. His address was tethered on the meaning of identity and the emergence and development of tribal identity over a period of time ranging from pre-colonial to colonial period and up to the present times. The session was concluded by a vote of thanks proposed by Dr. G. Lyngdoh, Coordinator, IQAC, Synod College, Shillong.

The programme consisted of a number of prominent resource persons from the country and across the globe. Speakers were (i) Dr. J. Mika (Senior Lecturer in the School of Management

and Co-director of Te Au Rangahau, Massey Business School's Māori Business Research Centre, New Zealand, (ii) Prof. T. B. Subba, North Eastern Hill University, Department of Anthropology, (iii) Prof. Jangkhongam Dounel, Department of Mizoram University & Fullbright Scholar, University of Cincinnati, Cincinnati, Ohio State, USA, (iv) Prof. S. Adnan, Professorial Research Associate, Department of Development Studies, School of Oriental and African Studies (SOAS) University of London, (v) (Retd) Prof. L. S. Gassah, Visiting Faculty, Department of Political Science (PG), Synod College and (vi) Prof. H. Srikanth, Head of Department, Department of Political Science, North Eastern Hill University.

The programme concluded with a valedictory session chaired by Mr. S. J. Jyrwa, Vice Principal, Synod College. The programme started with a welcome speech from the Convener - Mrs. A. R. Pariat, Head of Department, Sociology. The Chief Guest was Prof. B. Panda, Honorary Director CSSR-NERC, North Eastern Hill University, Shillong. The rapporteur's report was delivered by Miss. H. Lyngdoh and Miss. C. A. Kharsyntiew. The programme ended with a vote of thanks from the Organising Secretary - Mrs. M. N. Laloo.

Title - *Special Online lecture "Discipline in the times of Covid -19"*

Date - 16-09-2021

SYNOD COLLEGE

DISCIPLINE AND CLEANLINESS COMMITTEE

Report on the Lecture organised by the committee on the 16th September, 2021

The Discipline and Cleanliness Committee conducted a lecture on the 16th September, 2021 on the theme "Discipline in the times of Covid-19". The resource person for this lecture was Dr. R. Allya Joint Director of Health Services and Project Director, Meghalaya Aids Control Society. This programme was conducted online and the timing of the programme was at 6pm.

The objective of organising the online lecture talk is to sensitise the students of the college on the importance of maintaining self-discipline in following all the protocols and SOP's issued by the health department in our day to day life so as to mitigate the spread of Covid -19 in our community and to help fight the disease.

The Discipline and Cleanliness Committee of the college felt the urgent need to stress on this important aspect of self-discipline as a key factor in the fight against Covid -19. Creating awareness and highlighting the covid appropriate behaviour and the importance of vaccination would go a long way in helping society overcome this disease.

In this programme 10 students were invited from each department which included 15 undergraduate Honours departments of the Day Section, 4 undergraduate Honours departments of the morning section and 2 post graduate departments. A single teacher from each of the above departments was also invited for the programme. Altogether there were about 159 students which consist of 66 male and 93 female students. The total number of teachers who attended the programme was 28 in all which included the members of the Discipline and Cleanliness committee. There were 8 male teachers and 20 female teachers.

The programme was chaired by Smti. G.A. Kharsyntiew , Convener Discipline and Cleanliness committee. The welcome speech was delivered by Dr. R. M. Lyngdoh, Principal Synod College. The resource person Dr. R. Allya gave a very stimulating and interesting lecture. She was able to make the lecture very interactive and students came forward to pose a large number of questions. The resource person highlighted that covid -19 belong to the family of coronavirus which include SARS and MERS and is highly contagious and has high fatality rate. She also highlighted that it is a virus which is evolving and no one can predict how it will behave. Therefore the stress is on trying to minimise the spread of the disease by adopting covid appropriate behaviour.

Dr. R. Allya talked about the different covid appropriate behaviour such as proper wearing of face mask which would be effective in preventing the spread of the disease, maintaining social distance and cleanliness especially hand washing all of which are critical in the fight

against the disease and how negligence on our part can sometimes lead to tragic circumstances. She talked about our responsibility not only for ourselves but also to ensure the safety of our friends, family and loved ones. The resource person also talked about the importance of vaccination and she address a large number of questions from the students and was able to shed light on the many misgivings and misinformation about it. She encouraged students that to contain the spread of the disease is entirely in our control by strictly adhering to the norms of covid appropriate behaviour and through vaccination. She also highlighted the importance of vaccination through the sharing of data and informed how vaccination has led to decrease in hospitalisation and fatality of covid cases. The students interacted enthusiastically but due to paucity of time not all questions could be address by the resource person. The meeting was brought to a close by a vote of thanks from Dr. M. Dunai , member of the Discipline and Cleanliness committee who thanked the Principal, the Vice Principals, the Co-ordinator of the IQAC ,the resource person , the teachers and students of the various departments who participated in the programme as well as the technical team of the college who made arrangements for the programme to be conducted online.

The Discipline and Cleanliness committee looks forward to be able to conduct many such programmes on other issues related to cleanliness and discipline which will be beneficial to the student community and to society at large.

Title - *"Online Awareness Programme on Sexual Harrasment at Work Place*

Date - *24-09-2021*

WOMEN CELL, SYNOD COLLEGE, SHILLONG

Report on the Online Awareness Programme on 'Sexual Harassment at Workplace'

Link: <https://meet.google.com/kru-ukbw-fgy>

The Women Cell, Synod College, Shillong organized an Online Awareness Programme on the topic 'Sexual Harassment at Workplace' on the 24th September 2021 at 6 pm.

Two teachers and ten students (six girls and four boys) each from all the different departments (both PG and UG courses) from all streams were invited. The total number of participants who attended this programme was 218 with 135 females (Teachers-22, students-113) and 82 males (Teachers- 10, students-72)

The programme was chaired by Ms. N.C. Marbaniang, Convener of the Women Cell and Dr. G. Lyngdoh, Co-ordinator, IQAC, Synod College delivered the welcome address.

Smt. Rebina Subba, Advocate and former Member of Meghalaya State Commission for Women was the Resource Person. In her presentation, she touched upon sex, gender and the difference between the two words. She explained in detail about the word 'Sexual Harassment' and how to be able to know or understand if one has been verbally, non-verbally or physically sexually harassed. She talked about the different forms of sexual harassment at workplace. She also explained a 'workplace' according to SHWW(PPR)Act, and who can file a complaint under this act. She ended her presentation by emphasizing on the different strategies on how to prevent Sexual Harassment that each workplace should constitute an Internal Committee. She also stressed that the contact numbers of all Internal Committee members should be displayed.

At the end of the presentation there was a very active interaction between the Resource Person and the participants, where all queries were answered and clarified.

The programme concluded with a vote of thanks from Ms. C.A. Kharsyntiew, member of the Women Cell, Synod College.

Title - *Webinar via Google meet: Perspective of Agriculture and its role and importance for sustainable development and Business management in Agriculture to*

Celebrate the the International Year of Fruits and Vegetables-2021 (IYFV-2021) organised by the Science D

Date - 24-09-2021

A Report on a One Day Online Seminar

To

Celebrate the International Year of fruits and vegetables

Organized by the Science departments Synod College under DBT- Star College Scheme

Date: 24th September 2021

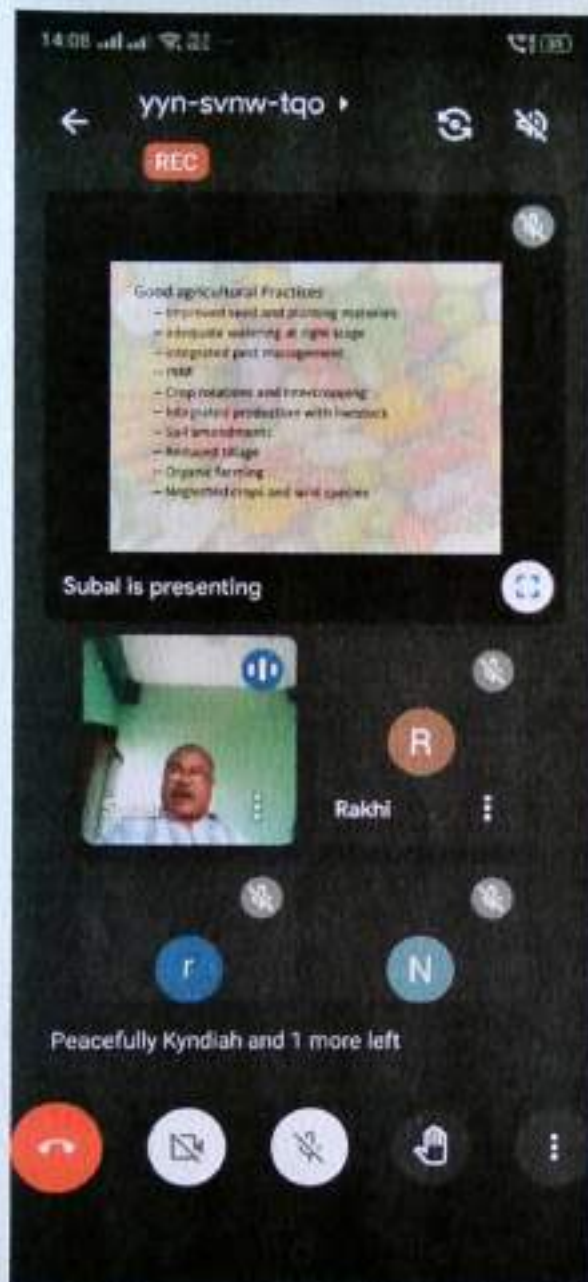

Time: 1:30pm

The Science departments of Synod College, Shillong under the DBT-Star college Scheme organized a one-day Webinar on the 24th September 2021 as a part of the celebration of International year of fruits and vegetables under the perspective of Agriculture and its role and importance for sustainable Development and Business management in Agriculture. This Webinar was held via google meet platform where a total of 238 numbers of participants registered online through google form and participated in this programme. It was then chaired by the Vice Principal of the college Sir S. Jyrwa, thereafter Dr M. Rani Vice Principal of the college delivered a welcome address for the distinguished speakers, faculties, and students. This programme was enlightened by the two resource persons. Dr.SubalMaibangsa, Principal Scientist and Head of Krishi Vigyan Kendra, Assam Agricultural University, KarbiAnglong, Diphu, Assam and Dr.Gino A. Sangma, Department of Agri Business Management and Food Technology, Tura Campus, NEHU, Tura.

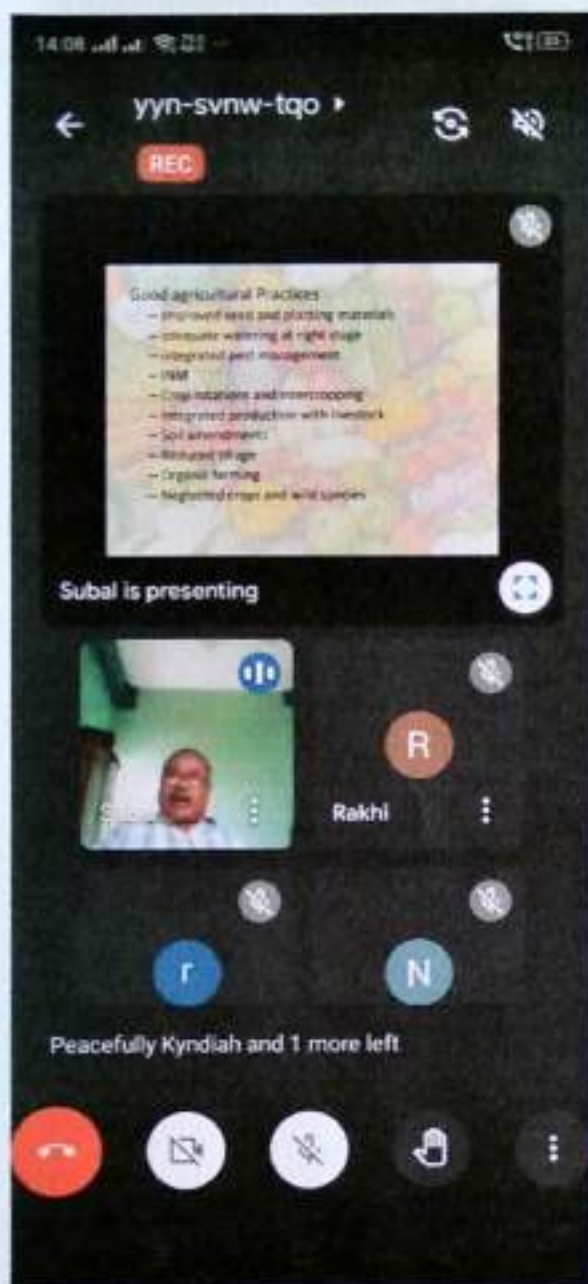

The first speaker was Dr.SubalMaibangsa where he elucidated on the role of horticulture and its importance for sustainable development. Horticulture has an enormous significance in enriching the diets in which fruits and vegetables acts as an integral part of a healthy balanced nutritious diet which contains essential elements, vitamins, antioxidants, minerals etc that help in building a healthy body and mind. On the other hand, insufficient intake of fruits and vegetables is estimated to cause around 14% of deaths from gastro-intestinal cancer worldwide. Furthermore, horticulture can generate income and is a source of livelihood to the people. To meet the needs of the present without compromising the ability of future generations to meet their own needs, he emphasized on how fruits and vegetables production should tend to be labour and skill intensively by practicing good agricultural methods like improved seed and planting materials, integrated pest management, organic farming, soil amendments etc., and by harnessing other techniques of horticulture like multi cropping system, hydroponics, and robotic farming. Following the first speaker, the second speaker Dr. Gino Sangma discussed about Agripreneurship: A way forward. He successfully deliberated about the concepts of Agripreneurship on how agriculture can pave a way in designing, launching, and running new business which is often initially a small business. In action, agripreneur ensures self-sufficient production, food security, income security to farmers, employment generation and national economic growth. In addition, agripreneurship has many potential areas especially in the field of horticulture such as production of agro-inputs, organic farming, floriculture, beverages, processed products and many more.

Thereafter, the thought-provoking and enlightened speech from the two resource persons the webinar was closed with a gratified vote of thanks proposed by Dr. W. kharmawphlang, gratifying everyone associated in the programme, the two resource persons, Principal and Vice Principals of

the College, faculties, and students and especially the Department of Biotechnology, Ministry of Science and Technology, Government of India for being the backbone of this celebration.

Title - *Special lecture cum webinar on “Some Conjectures in Mathematics” delivered by Dr. J.P.J. Kharbhih, Department of Mathematics, NEHU*

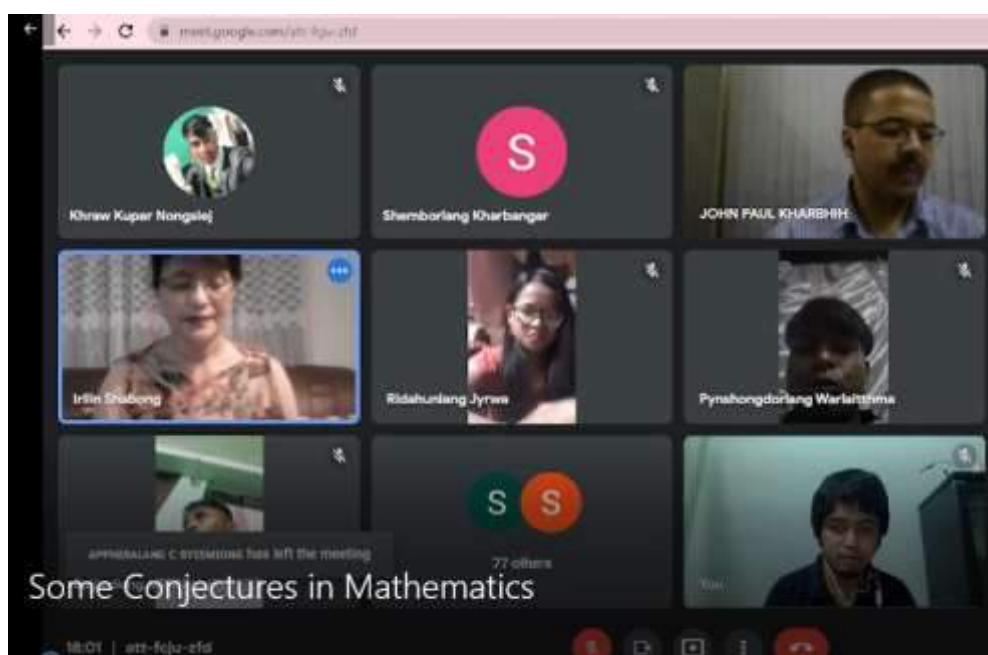

Date - 28-09-2021

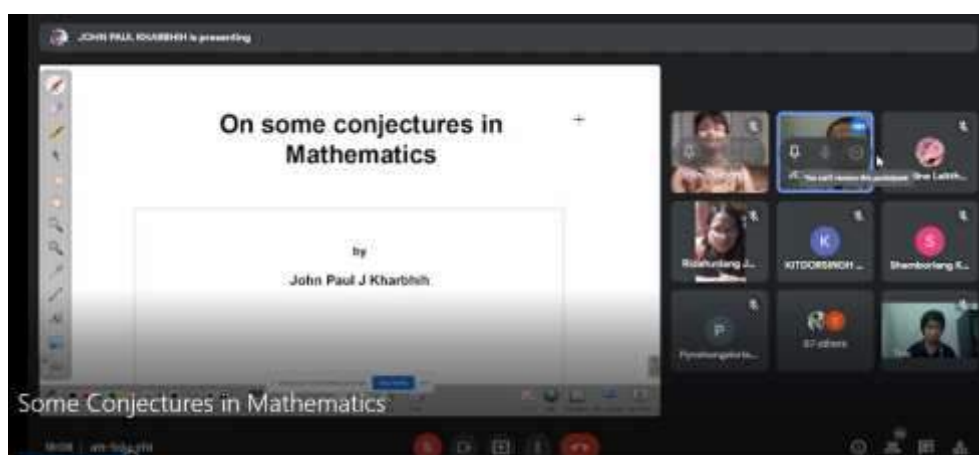

REPORT OF THE SPECIAL LECTURE HELD BY THE MATHEMATICS DEPARTMENT

The Mathematics Department with the permission of the Principal, Dr. R.M.Lyngdoh, conducted a special lecture on the **28th September, 2021** at 6 p.m. in online mode via Google Meet. The resource person invited for this lecture was Dr. John Paul Jala Kharbhih, Assistant Professor , North Eastern Hill University, Shillong and the topic of the lecture was “**Some conjectures in Mathematics**”.

The program of the special lecture:

1. Chairperson - Smti. I.Shabong
2. Welcome speech – Smti. H.G.Laitthma, HOD
3. Lecture - Dr. J Paul Jala Kharbhih
4. Vote of Thanks – Shri. D.L. Jyrwa

In the lecture the resource person presented the following Conjectures in the Theory of Numbers:

1. Twin Primes and Cousin Primes
2. abc conjecture
3. The $(3x+1)$ problem, also known as the Collatz Conjecture
4. Goldbach's Conjecture
5. Riemann Hypothesis

The lecture was well attended by 96 Mathematics honours students from the 1st, 3rd, and 5th Semester. The lecture has enlightened and has benefitted the students to a great extent. The interaction of the students with the resource person by their queries and questions was lively and fruitful.

Feedback from the students were then collected via Google Forms.

The video of the programme can be downloaded from the link https://drive.google.com/file/d/1lIrgXRvBVnxh5zLJPetn28IGv7ix5Nbg/view?usp=share_link

**Title - Webinar on “A Retrospection into Meghalaya’s 50 years journey of Statehood” - Day 1
(21-10-2021)**

Date - 21-10-2021 - 22-10-2021

Webinar on Retrospection into Meghalaya's 50 years journey to statehood

Date: 21-10-2021 to 22-10-2021

Organized by

The Centre for Historical Research Synod College, Shillong

In collaboration with

The Department of Arts and Culture, Government of Meghalaya

Concept note:

Centre for Historical Research Synod College (CHRSC) in collaboration with the Department of Arts and Culture, Government of Meghalaya is organizing a Webinar on "A Retrospection into Meghalaya's 50 years journey of Statehood" on the 21st - 22nd October 2021

Concept note - The Khasi, Jaintia and Garo tribes had their own independent kingdoms/states until they came under British administration in the nineteenth century. Residing in the present state of Meghalaya they have taken part in the freedom struggle and were integrated to the Indian Union at the time of India's independence in 1947 as part of Assam under the two constituted autonomy districts.

The movement for a separate hill state came about when the indigenous people wanted to reassert the protection of their identity as minorities in the composite state of Assam. It was one of the movements which can be glorified and reminisced due to its nonviolent nature from its beginning till the achievement of its objectives. In 1968, the Government of India announced a scheme for constituting an autonomous state within the state of Assam comprising certain areas specified in the Sixth Schedule to the Constitution. Accordingly, the Assam Reorganisation (Meghalaya) Act of 1969 was enacted for the formation of an autonomous state. After the Parliament passed the North-Eastern Areas (Reorganisation) Act, 1971, Meghalaya was conferred a full statehood on the 21st January 1972 with two districts - the United Khasi Hills and Jaintia Hills, and the Garo Hills.

On the 21st January 2022, the state will commemorate its fifty years of Statehood and hence remembering and honouring the contributions of the leaders for their relentless efforts towards the creation of a separate state is indeed a momentous occasion. Moreover, recognizing the involvement of individuals, who have brought laurels to the State in various fields over the years, is the primacy of a State. The State has made significant progress in various sectors and achieved several milestones in development, governance and in delivering service to the people, however, while reflecting on the State's journey of forty nine years, there are also challenges that need introspection. In the process, it strives to achieve the collective aspirations of the stakeholders and ensure that it is in alignment with the past as well as the present reality. However, there are constraints that the State is also facing in the path of achieving its targets and expectations. Initiatives have to be taken to embark and formulate strategies and policies to tackle, to maintain equilibrium and preparedness to overcome any challenges in the near future.

Title - National Webinar on "Waste Management"

Date - 03-11-2021

**A BRIEF REPORT ON
ONE DAY NATIONAL WEBINAR ON WASTE MANAGEMENT**

3rd November 2021

The Science Departments, Synod College Shillong under the DBT- Star College Scheme organised a one day national webinar on Waste Management on the 3rd November, 2021. The webinar was hosted on google meet platform where a large number of participants including faculties from different Colleges, universities, research scholar, students as well as officials from government and non-government organizations attended the webinar. The programme started with an inaugural function at 10:00 a.m., chaired by Dr. M. Rani, Vice Principal, Synod College, Shillong and Dr. R.M. Lyngdoh, Principal, Synod College delivered the inaugural address.

The entire programme was divided into two sessions in which each session was allotted with two esteemed speakers.

Session 1: The first session was chaired by Dr. M. Rani, Vice Principal, Synod College.

Lecture-1: Presented by Prof. Sadhan Kumar Ghosh, Chief Co-Ordinator Centre for Sustainable Development & Resource Efficiency Management Jadavpur University, Kolkata.

Prof. Sadhan Kumar Ghosh specifically talks about Waste management- problems, Solutions and Research. He stated that waste generation is by default, but management or segregation of waste is very important to conserve, preserve and protect our environment and apart from it, waste can be considered also as one of the natural resources where huge income can be generated from it. He suggested some solutions pertaining to the pollutions of microplastics which are very harmful to health viz., legal support, technology support, Bio-medical waste management and e-waste management. Through his findings it was interesting to hear that in India waste management has improve due to implementation of various schemes such as Swatch Bharat mission and many more. He even inspires our College to take up this responsibility to manage the waste by having at least three bins for proper segregation of different types of waste.

Lecture-2: Presented by Prof. Ajay Kalamdhad, Department of Civil Engineering Indian Institute of Technology Guwahati

Prof. A. Kalamdhad delivered a talk on Decentralized treatment of Biodegradable Solid Waste. He highlighted the evolution, generation and dumping of municipal solid waste in India. He added the importance of the management actions of improper garbage dumping sites. He further explained about centralized and decentralized waste management practice and the drawback in the current waste management system in India. Finally he pointed out

the necessity of composting of biodegradable waste as a quality standard and the sustainable way for addressing waste issue.

Session II: The second session was chaired by Dr. D. Marngar, HOD (in-charge), Department of zoology, Synod College

Lecture-3: Presented by Prof. Madho Bisht, Department of Environmental Studies, North Eastern Hill University, Shillong.

Prof. Madho Bisht delivered a lecture on the topic “Waste Management in our environment”. He said that waste can be potential resources and a multibillion business to many sectors of the society; it just needs proper management and novel ways of use. As such there is nothing like garbage or waste in nature. Everything is energy and a source of sustenance for one and all. To many others waste is an opportunity not a problem. However, improper and unscientific handling of wastes can caused many problems to the environment and affects all forms of life in the biosphere. He also highlighted the amount of waste produced by India particularly the inhabitants of Meghalaya and also waste generated worldwide. He pointed out that huge amount of money have been utilised for waste management worldwide. Different types of municipal waste have been converted to usable forms. He concluded his lecture by quoting “Nothing is waste, everything is a resource or a form to pass energy to another form”.

Lecture-4: Presented by Shri. B.S. Sohliya, Chief Executive Officer, Shillong Municipal Board, Shillong.

Shri. B.S. Sohliya delivered a lecture on the topic “Waste Management in Shillong”. He briefed on the history of Shillong municipality and waste management carried by the different authorities like the Shillong Municipal Board (SMB) in municipality areas, Shillong cantonment board in cantonment areas and the local traditional institutions in other census towns of the state. The speaker highlighted the main activities of SMB like giving awareness and sensitise the public about managing municipal solid waste in a hygienic and scientific manner, segregation of solid waste at source, distribution of colour-coded bins to every household under the ADB & MoHUA funded NERCCDIP. He also discussed on the collection, transportation and treatment of biodegradable, non-biodegradable and hazardous waste produce by residential, institutional, hospitals and commercial areas of Shillong. The speaker also mentioned other waste management activities like installation of TPD compost plant near the landfill site, setting up of waste recovery centre inside and outside of Shillong municipal board and acquisition of new landfill site in the state. He urged and encouraged the inhabitants of Meghalaya to take active participation in waste management starting from the individual level. He also added that members of the community should be stakeholders and contributors to a clean, healthy and green environment.

The webinar features insights on various waste management strategies and offered the participants an opportunity to engaged with leading and prominent speakers who are experts in the field of waste management. At the end of each lecture, participants were offered to posed their queries via chat box and several interesting questions such as issues relating to waste management, monitoring of air emissions from landfills, hazardous waste processing were asked by the participants.

The webinar was ended with vote of thanks by Dr. A.J. Iangrai, Co-ordinator, DBT Star College Scheme.

Title - *Special lecture on Climate Ready Communities*

Date - 10-11-2021

A REPORT ON ONE DAY SPECIAL LECTURE ON
WORLD SCIENCE DAY FOR PEACE AND DEVELOPMENT-2021
THEME: "BUILDING CLIMATE- READY COMMUNITIES"

Organised by

The Chemistry Department under the DBT- Star College Scheme, Synod College, Shillong.

Sponsored by

The Department of Biotechnology, Ministry of Science and Technology, Government of India

Date: 10th November 2021

Venue: Hall 301 synod College

Every year since 2002, World Science Day for Peace and Development is observed on November 10, to highlight importance and relevance of science in our daily lives. The Department of Chemistry of Synod College, Shillong celebrated the World Science Day on 10th November, 2021. The theme for the event was "Building Climate- Ready communities". A total of 113 B.sc and class XI Students of the college and 6 faculty of Chemistry Department attended the Celebration. The programme was chaired by Shri. N. Kharbani, Associate professor Department of Chemistry, Synod College. This programme was elucidated by the speech from Dr. W. Kharmawphlang, Associate Professor and Head of the Chemistry Department. Speaking on this year theme which focuses on "Building Climate-Ready Communities" she highlighted that climate change is a serious threat to the lives of billions of people on the planet. So it is necessary to focus on some key scientific aspects and possible solutions how it can be addressed by science, technology, and innovation. She said that the most important issues for the sustainable development is the effect of climate change such as poverty, conflict, resource depletion, loss of livelihoods, ecological degradation, environmental insecurity, safer earth for a new generation, development and inequalities. She stated that the significance of world Science Day for Peace and Development 2021 is to strengthen awareness about the role of science for peaceful and sustainable societies and to make new national and international commitments to the use of science that will benefit societies. The programme was closed with a vote of thanks by Shri. N. Kharbani gratifying the Principal of Synod College, teachers and students who participated in the programme, he acknowledged the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event.

Sponsored by
The Department of Biotechnology, Ministry of Science and Technology, Government of India

Venue: College Auditorium

Date: 16th February, 2022

Time: 10.00 AM

Chemistry Department of Synod College Shillong, under the DBT-Star college Scheme organized a special Lecture on 'IUPAC- Global Women Breakfast' 2022, Empowering Diversity in Science. This special Lecture was held at the College Auditorium. The total number of 137 Students and 21 faculty members, a grand total of 158 members participated in this programme. The programme was chaired by Vice Principal of Synod College Dr. M. Rani. Thereafter Dr. R.M. Lyngdoh Principal of Synod College Shillong delivered a welcome address, he delighted to welcome Dr. Paresh Nath Chatterjee, Associate Professor NIT Meghalaya, Dr. M. Rani vice Principal of Synod College Shillong, Dr. G. Lyngdoh Coordinator IQAC, Coordinator DBT, faculties of Synod College and all the B.Sc. students who attended the lecture. Dr. Dr. Paresh Nath Chatterjee, Associate Professor NIT Meghalaya, is the Resource Person in this event before he started with the Lecture he briefly shared his idea on admission procedure for B.Tech, M.Tech, M.Sc and Ph.D Program in NIT or IIT institute. On his speech he highlighted the importance of Homogeneous Catalysis and Heterogeneous catalysis and explained in detail the synthesis of active Bi(0) using Na_2SnO_2 as reducing agents and its application in Barbier type, synthesis of active Sn(0) using Na_2SnO_2 as reducing agents and its application in propargylation of aldehyde, Carbon-carbon bond cleaving Reactions, Activation of n -activated alcohol and some biological application of Benzopyran compounds. The inauguration programme was closed with a vote of thanks from Dr. W. Kharmawphlang gratifying the Principal and the chairman of the programme Vice-Principal of Synod College, Dr. Paresh Nath Chatterjee, teachers and students of various Science Department, the DBT-Star College Scheme Department of Biotechnology, Ministry of Science and Technology, Government of India for sponsoring the event.

A REPORT ON
THE CELEBRATION OF NATIONAL SCIENCE DAY, 2022
Organised by the Science Department under the DBT-Star College Scheme, Synod
College Shillong

Venue: College Auditorium

Date: 28th February 2022

Time: 10:00 am

The Science Departments under the DBT- Star College Scheme, in collaboration with the Students Science Club and Environment Club, Synod College Shillong celebrated the National Science Day on the theme “Integrated Approach in Science and Technology for a Sustainable Future” on the 28th February, 2022 at Synod College Auditorium.

The programme started with registration of students and teachers in which a total of 85 participants attended, thereafter the celebration was started at 10 A.M and was chaired by Dr. M. Rani, Vice Principal which was followed by the welcome address from Dr. R.M. Lyngdoh, Principal, Synod College, Shillong.

On this event, a special lecture was delivered by an eminent speaker Prof. A. Chatterjee, Department of Biotechnology & Bioinformatics, NEHU, Shillong. The speaker highlighted the significant role of science in society and the need to engage the wider public in debates on emerging scientific issues. It also underlines the importance and relevance of science in our daily lives. The speaker also shed lights through his research findings that taking tobacco and tobacco products like raw beetle nuts liberate a chemical compounds such as alkaloids which are responsible for the cause of many cancers. At the end of the presentation, the participants were allowed to interact with the speaker.

Following this presentation, certificates and mementos were distributed to all the winners of the online science exhibition organised by the Science club, Synod College, Shillong. Certificate of Participation was also given to all the participants.

The celebration was ended with vote of thanks delivered by Dr. G. Lyngdoh, Co-ordinator IQAC, gratifying everyone associated in the celebration, especially the department of Biotechnology, Ministry of Science and Technology, Government of India for being the backbone of this celebration.

Understanding Holi Festival: Its Meaning and Significance

Webinar jointly organized by
Department of Education (PG) and EBSB CLUB
SYNOD COLLEGE SHILLONG

Brief Report

Department of Education (PG) Synod College Shillong in collaboration with the EBSB Club, Synod College jointly organized a webinar on *Understanding Holi Festival: Its meaning and significance* on the 18th March, 2022 on the virtual platform.

The objectives of the webinar were as follows:

- (a) To enable the students to understand the meaning and the significance of the *Holi* Festival
- (b) To enable the students to know the history of the festival
- (c) To enable them to appreciate the beauty and the cultural practices associated with the festival
- (d) To help them to understand the changes in the celebration of the festival (a comparison of the historical practices with the modern practices)

The resource person for the programme was Dr. Zacharias Tirkey, Asst. Professor, Department of Public Administration, Assam Don Bosco University. The speaker introduced to the participants the different perspectives on the history of *Holi* festivals, its significance from the point of mythology, cultural, sociological, Biological. He also elaborated on the states of India where *Holi* Festivals is celebrated with great pomp and grandeur such as Odisha and West Bengal whereby shedding lights on the present rituals and practices in celebration. 42 students and 5 assistant professors attended this webinar.

1. Summary of the Programme

A BRIEF REPORT ON BLENDED MODE SPECIAL LECTURE

Topic: PLASMA TECHNOLOGY AND ITS APPLICATION

Organised by the Science Departments under the DBT-Star College Scheme, Synod

College Shillong

Venue: Synod College Auditorium

Date: 30th August, 2022

Time: 2:00 PM

The Science Departments under the DBT- Star College Scheme, organised a special lecture in blended mode on the titled “Plasma technology and its application” on 30th August, 2022 from 2:00 PM to 3:30 PM in Synod College Auditorium. The lecture was delivered by an eminent speaker Dr. Arun Kumar Sarma, Director General, NECTAR and chaired by Dr. W. Kharmawphlang, Co-ordinator, DBT-Star College Scheme, Synod College. There were about 208 participants, comprising students from B.Sc 5th semester and faculty members from the department of Botany, Zoology, Chemistry, Physics, Mathematics and Geography. Dr. Arun Kumar Sarma started his talk by given a brief introduction about plasma and its different types. He brings up the challenges of working with plasma and its various applications for societal development. The speaker shed lights on the application of plasma in nuclear science, agriculture sector, automobile industry, food processing and textile industry. Plasma technology has touched almost every aspect of human activity due to its versatility. Moreover, it is a clean and eco-friendly technique which minimizes waste, unlike wet-chemical processes. The speaker also highlighted on some of the work carried out at NECTAR, Shillong and the potential future uses of Plasma. Feedback forms were distributed to the participants and as per the feedback received the lecture was a good learning experience and very informative for the students as well as teachers. The lecture concluded with a short Q&A session followed by vote of thanks proposed by Dr. A.J. Iangrai, Assistant professor, Synod College, Shillong.

Seminars, Conferences and Workshops Organized

Year - 2022

Title - *International Inter-Disciplinary Seminar on “Look South Policy vis-à-vis Meghalaya*

Date - *20-11-2022 to 21-11-2022*

Report of the International Inter-Disciplinary Seminar on “Look South Policy vis-à-vis Meghalaya”

The International Inter-Disciplinary Seminar on “Look South Policy vis-à-vis Meghalaya” was organized by the Department of Economics and Department of Commerce in collaboration with the IQAC, Synod College, Shillong on the 20th – 21st November 2022 in the auditorium of the college.

International Inter-Disciplinary Seminar
on

“Look South Policy vis-à-vis Meghalaya”

The following is the detailed programme for the two-day international seminar where the seminar was inaugurated by the Honourable Chief Minister Shri Conrad K. Sangma on the 20th of November 2022 at 9 AM in the auditorium of the college. The seminar saw a culmination of people from various sections of society consisting of academicians, researchers, journalists, students and those who are at the helm of it all that is the traders who are involved in the border trade between India and Bangladesh.

The valedictory session was held in the auditorium on the 2nd day of the international seminar where Shri Vincent H. Pala Honourable Member of Parliament, Lok Sabha was the Chief Guest. The seminar was funded by the Government of Meghalaya through the Chief Minister’s fund and the seminar as a whole saw many papers being presented and deliberation from various resource persons and paper presenters.

Seminars, Conferences and Workshops Organized

Year - 2022

Title - *Workshop and Sensitisation programme on various statistical indicators as part of Publicity and Information, Education and Communication (IEC) activities, organised by the Office of the District Statistical Officer, East Khasi Hills, Shillong in Synod Col*

Date - 16-12-2022

Report on the Workshop on Sensitisation programme on various statistical indicators as part of Publicity and Information, Education and Communication (IEC) activities, organised by the Office of the District Statistical Officer, East Khasi Hills, Shillong

The Department of Economics, Synod College, Shillong together in collaboration with the District Statistical Officer, East Khasi Hills, Shillong organised a one-day workshop on the Sensitisation programme on various statistical indicators as part of Publicity and Information, Education and Communication (IEC) activities on the 16th December 2022 from 9:30 AM to 4 PM.

The workshop started with the registration of the participants and faculty attending the workshop. There was a total of 30 students comprising first, third and sixth-semester Economics Honours students. The workshop started with a welcome speech from Smti I. Rynjah, District Statistical officer welcoming the students, faculty, and staff from the office of the District Statistical Officer, East Khasi Hills, Shillong. Smti. I. Rynjah also welcome the resource person for the workshop Shri. R. Sumer, Deputy Director, Directorate of Economics and Statistics, Meghalaya, Shillong for willingly accepting the invitation to be the resource person for the one-day workshop.

The workshop is divided into two sessions:

SESSION 1: Resource person- Shri R. Sumer

The resource person gives insight into the use of statistics in the price showing how CPI is calculated, and how DA for Government employees is calculated. The resource person also explains the various activities carried out by the Directorate of Economics and Statistics which includes using CPI to calculate the DA of Government employees, using statistics for NSSO, calculating and gathering information for the National Income of the state, Census of Government Employees section and providing information through the Publication Section. The resource person also gives practical data for better understanding for the students.

SESSION 2: Resource person- Shri R. Sumer

The second session is basically a practical workshop where students are shown through the presentation how to use statistics which otherwise, they learn only in theories. They were shown how the base year changes and why prices fluctuate with regard to the base year. Base year revision can be done only in normal economic times. Thus, in 2017-18 the base year could not be done because in 2016 there is an economic breakdown and similarly in 2020-21 since there is the pandemic.

The workshop concluded with feedback from faculty and students and a concluding remark by Smt C.O.Rani, Inspector of Statistics, Directorate of Economics and Statistics, Shillong.

Students attending the workshop on the 16th of December 2022.
